

- Woyce technologies and services Pvt Ltd

Introduction

Company Name:

Woyce technologies and services Pvt Ltd

Introduction:

Woyce technologies and services Pvt Ltd is a premier IT solutions provider committed to delivering innovative and customized technology services. Our mission is to empower businesses by leveraging the latest technologies to drive efficiency, scalability, and growth. We pride ourselves on our client-centric approach, ensuring that each solution is tailored to meet the unique needs of our clients. Our dedication to excellence and continuous improvement has established us as a trusted partner in the IT industry.

Our Expertise

We specialize in a broad spectrum of technologies, ensuring that our solutions are modern, scalable, and robust.

Front-End Development:

- Angular
- Next.js
- React.js

Back-End Development:

- Node.js
- Python
- Laravel
- CodeIgniter

DevOps & Cloud Services:

- AWS
- Azure

Chatbot Development:

- Botpress
- Dialogflow
- Telegram Chatbot

Blockchain & AI Solutions:

- Blockchain for data security
- AI-driven automation and insights
- AI & Machine Learning
- AI Chatbot Integration
- Bot Training

Mobile App Development:

- React Native
- Ionic
- Flutter

Our Portfolio

We have successfully developed and deployed a variety of innovative products across multiple industries. Below are some of our key projects:

- Woyce technologies and services Pvt Ltd

HWS (Health Wealth Safe)

Features:

- A complete healthcare platform for managing patient records, electronic medical records (EMR), billing and many more.
- Staff members can communicate in real-time via chat and video calls using Twilio and Jitsi.
- Patients can book appointments, store health documents, and chat with doctors.
- Doctors and staff can access patient records, chat with patients, and conduct video consultations.

Technology Stack:

Frontend: AngularJS (Web), React Native (Mobile)

Backend: Node.js, Microservices, WebSocket, Cron Jobs, Log MS, AWS Lamda

Database: PostgreSQL, DynamoDB, Firestore

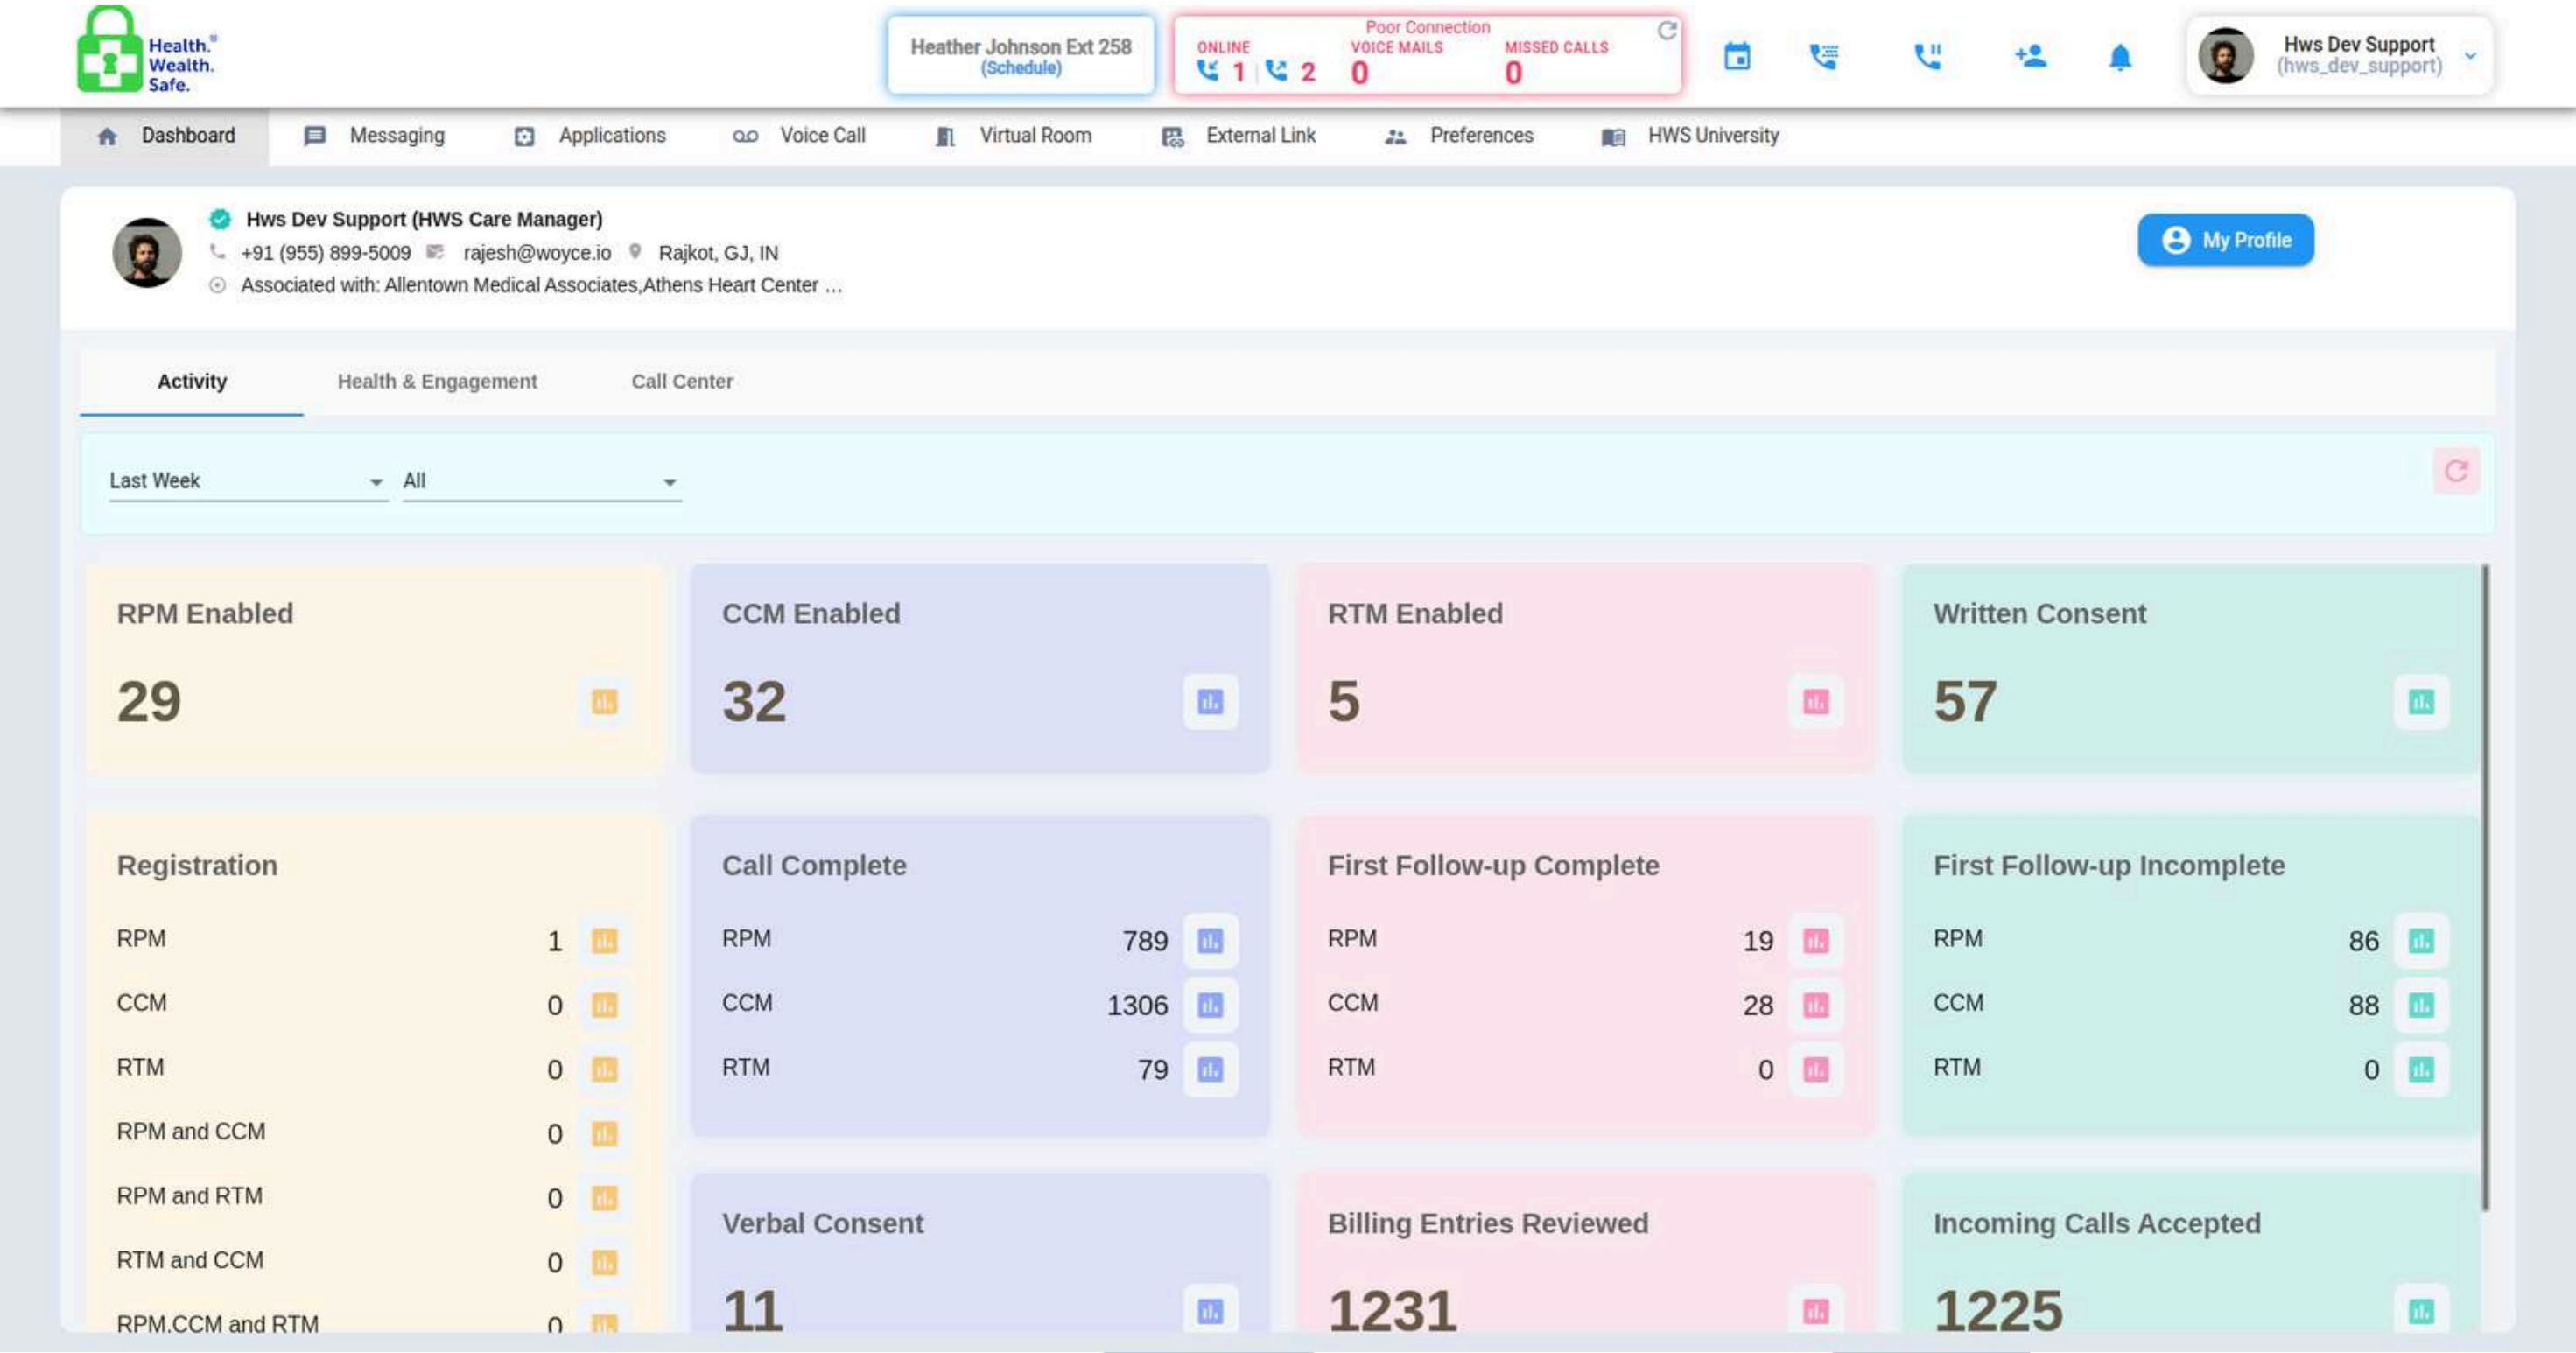

3rd Party Integrations: Twilio, Jitsi, Agora

Cloud: AWS

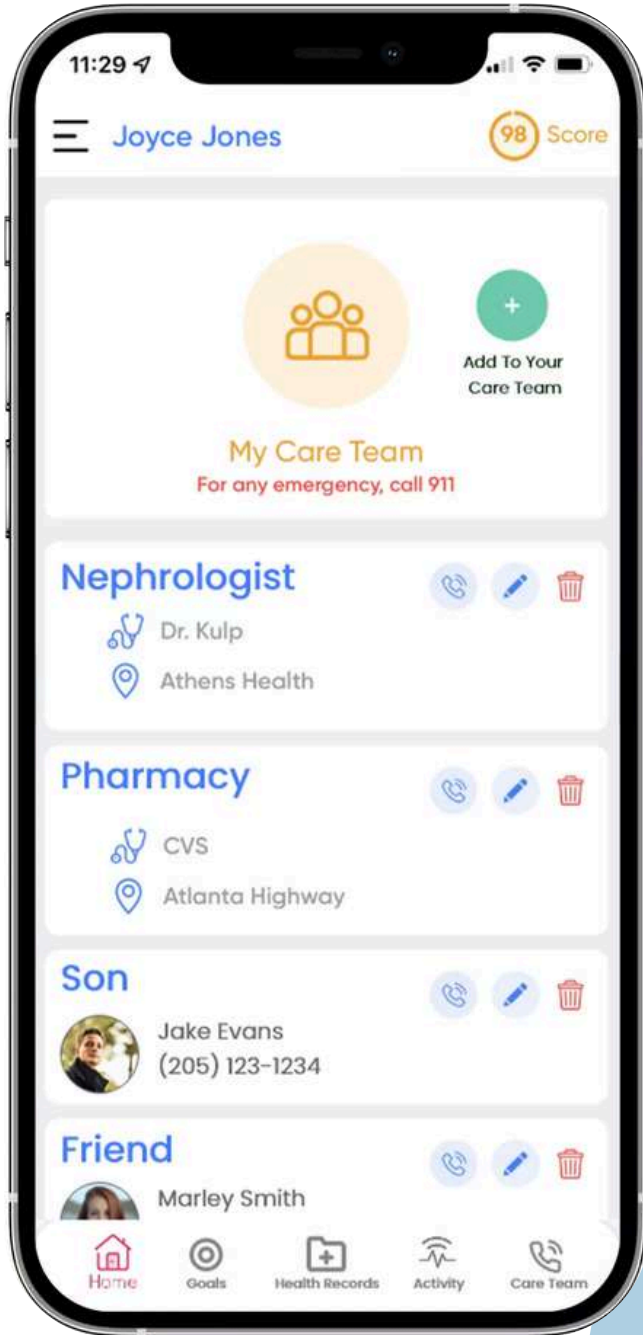

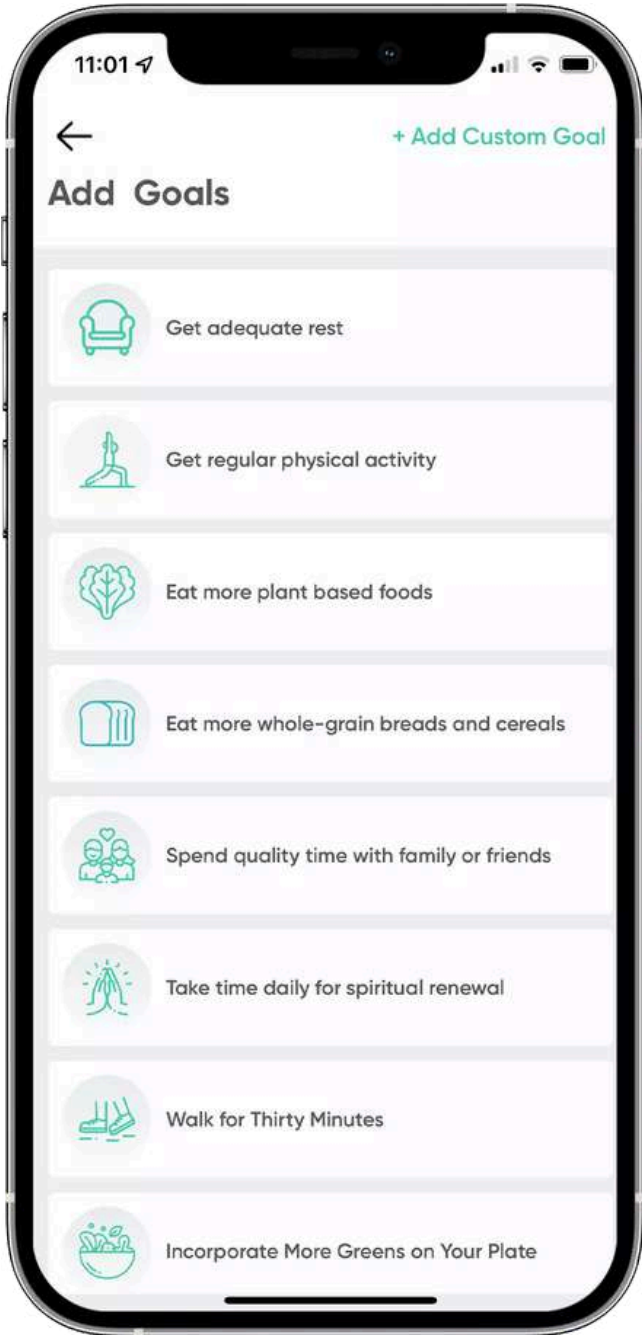

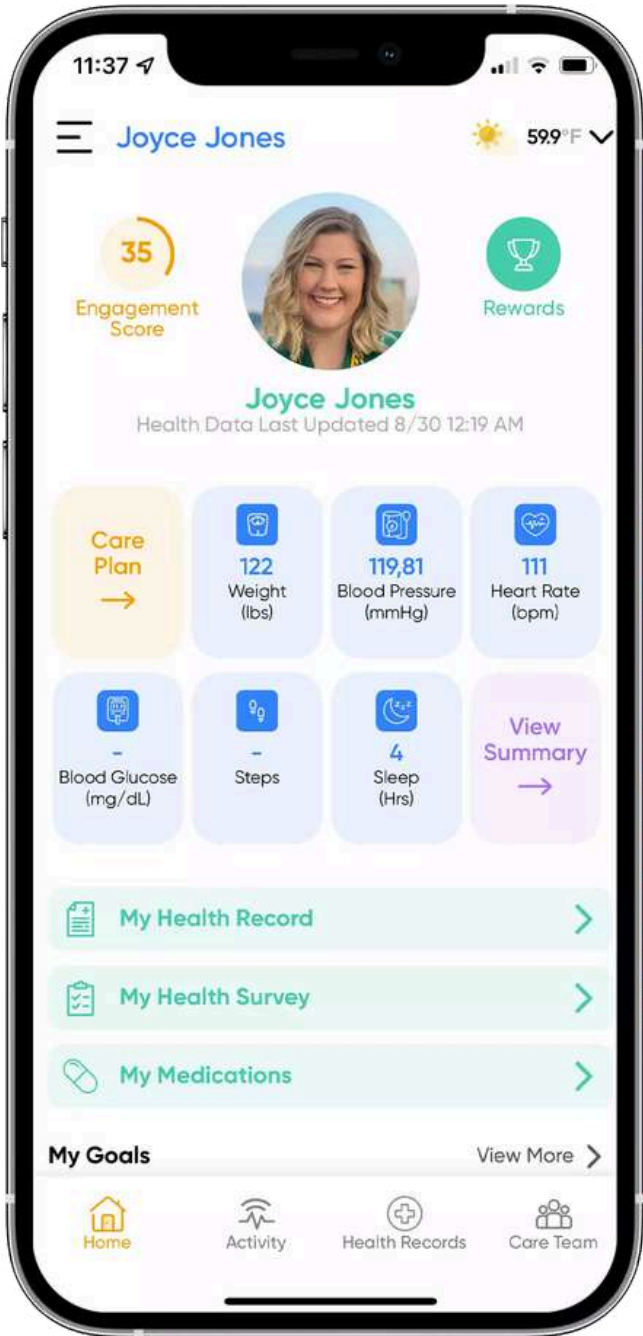

Link:

- <https://www.healthwealthsafe.com/>

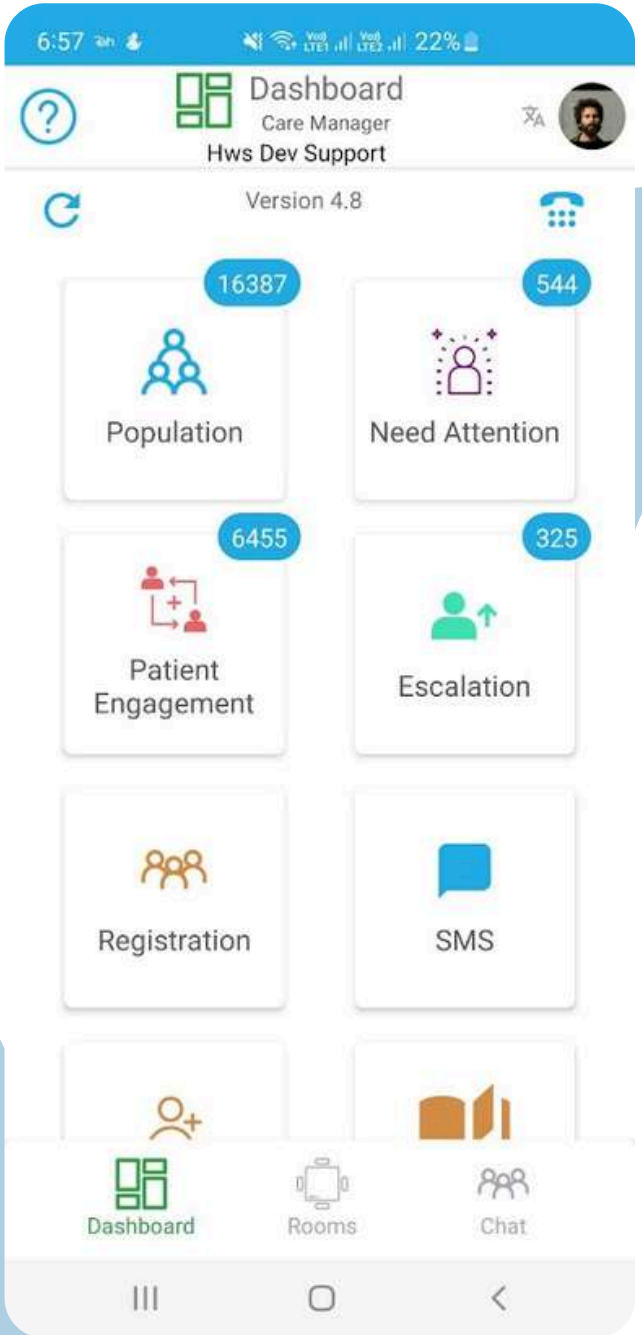

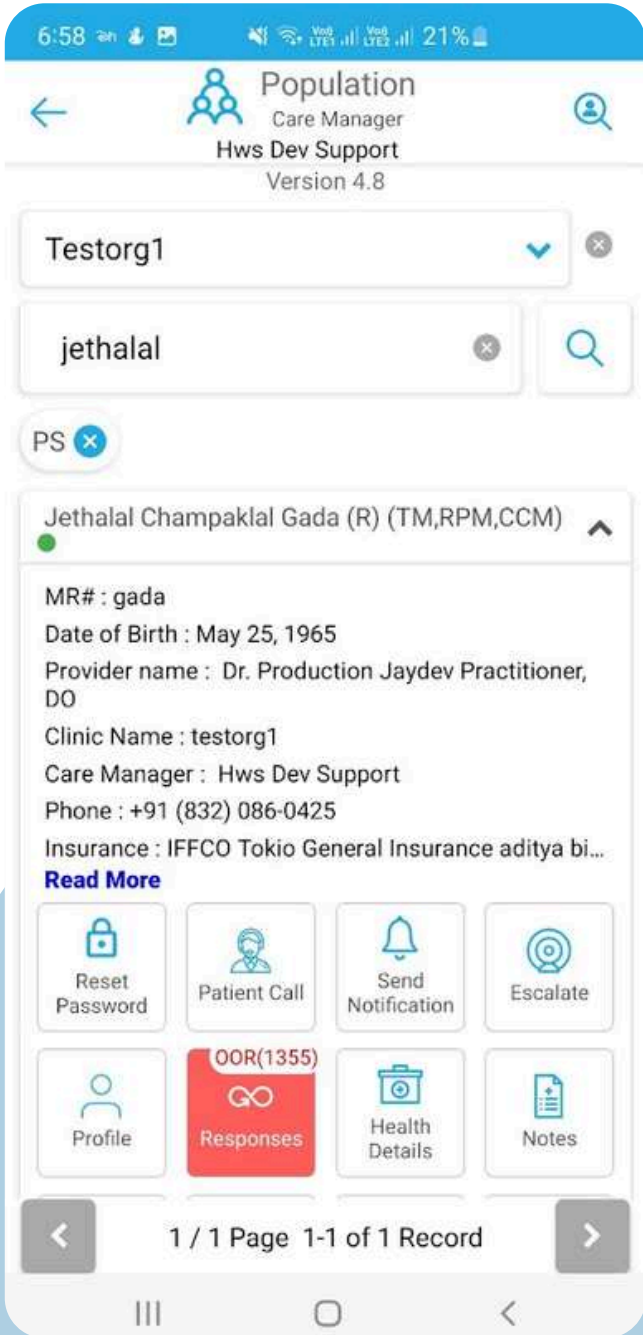

Woyce technologies and services Pvt Ltd

HWS Patient App

HWS Staff App

- Woyce technologies and services Pvt Ltd

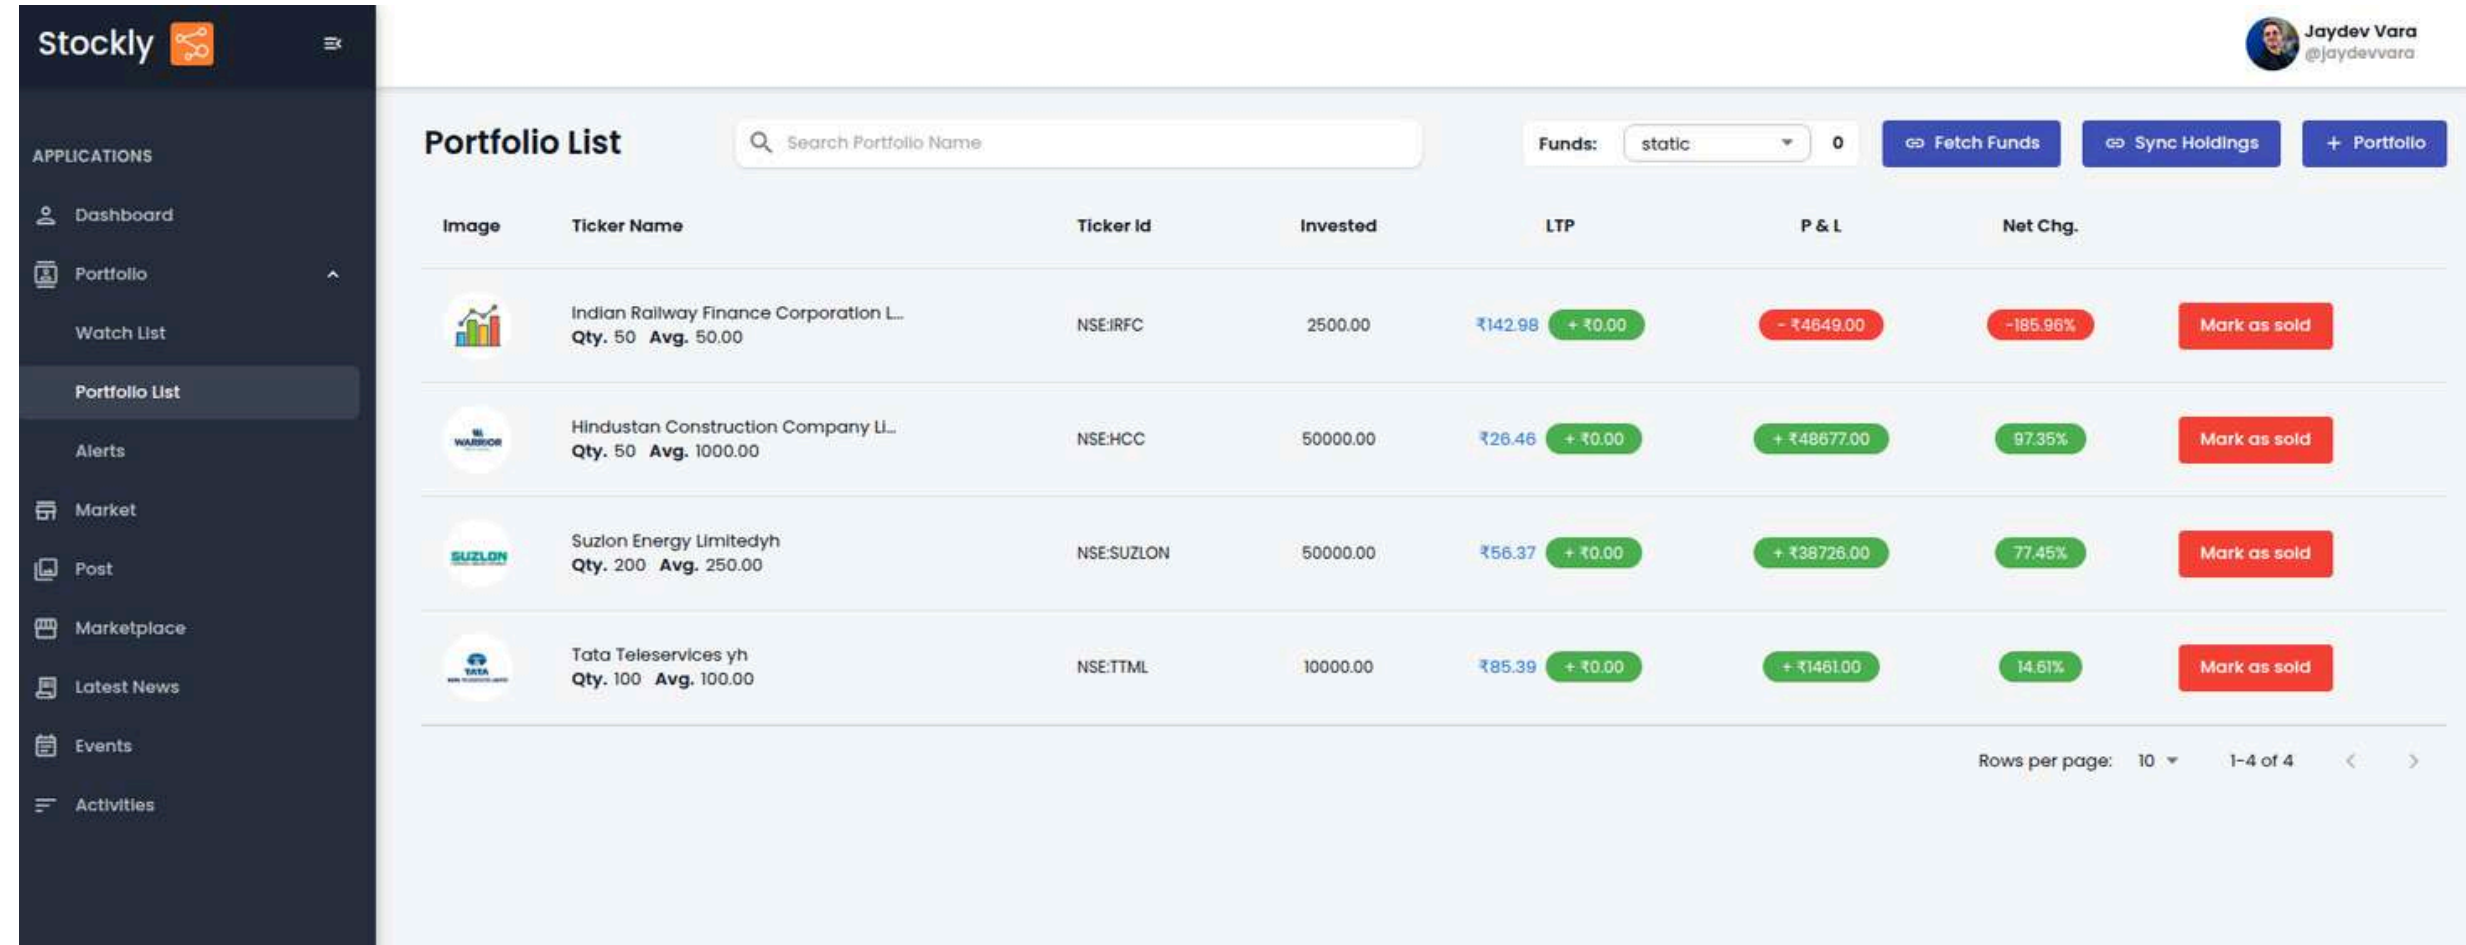

Stockly – AI-Powered Stock Market Platform

Features:

- Connects users with investors, experts, and AI-powered assistants for stock market insights.
- Helps users stay informed with real-time financial data and analysis.
- Provides a social platform for discussing stock trends and investments.

Technology Stack:

- Frontend: React.js (Web), React Native (App)
- Backend: Node.js, Python
- Database: PostgreSQL
- 3rd Party Integration: Polygon API

The screenshot displays the Stockly web application interface. On the left is a dark sidebar with a menu under 'APPLICATIONS' including Dashboard, Portfolio, Watch List, Portfolio List (highlighted), Alerts, Market, Post, Marketplace, Latest News, Events, and Activities. The main content area is titled 'Portfolio List' and features a search bar, a 'Funds' dropdown set to 'static' with a value of '0', and buttons for 'Fetch Funds', 'Sync Holdings', and '+ Portfolio'. Below this is a table with columns: Image, Ticker Name, Ticker Id, Invested, LTP, P & L, Net Chg., and a 'Mark as sold' button. The table lists four stocks: Indian Railway Finance Corporation Ltd., Hindustan Construction Company Ltd., Suzlon Energy Limited, and Tata Teleservices. Each row shows the stock's image, name, ticker, invested amount, current LTP, change from the previous close, P & L, percentage change, and a 'Mark as sold' button. At the bottom right, there is a pagination control showing 'Rows per page: 10' and '1-4 of 4'.

Image	Ticker Name	Ticker Id	Invested	LTP	P & L	Net Chg.	
	Indian Railway Finance Corporation Ltd. Qty. 50 Avg. 50.00	NSE:IRFC	2500.00	₹142.98 + ₹0.00	- ₹4649.00	-185.96%	Mark as sold
	Hindustan Construction Company Ltd. Qty. 50 Avg. 1000.00	NSE:HCC	50000.00	₹26.46 + ₹0.00	+ ₹48677.00	97.35%	Mark as sold
	Suzlon Energy Limited Qty. 200 Avg. 250.00	NSE:SUZLON	50000.00	₹56.37 + ₹0.00	+ ₹38726.00	77.45%	Mark as sold
	Tata Teleservices Qty. 100 Avg. 100.00	NSE:TML	10000.00	₹85.39 + ₹0.00	+ ₹1461.00	14.61%	Mark as sold

- Woyce technologies and services Pvt Ltd

Hcomb – AI-Driven Hiring & Training Platform

Features:

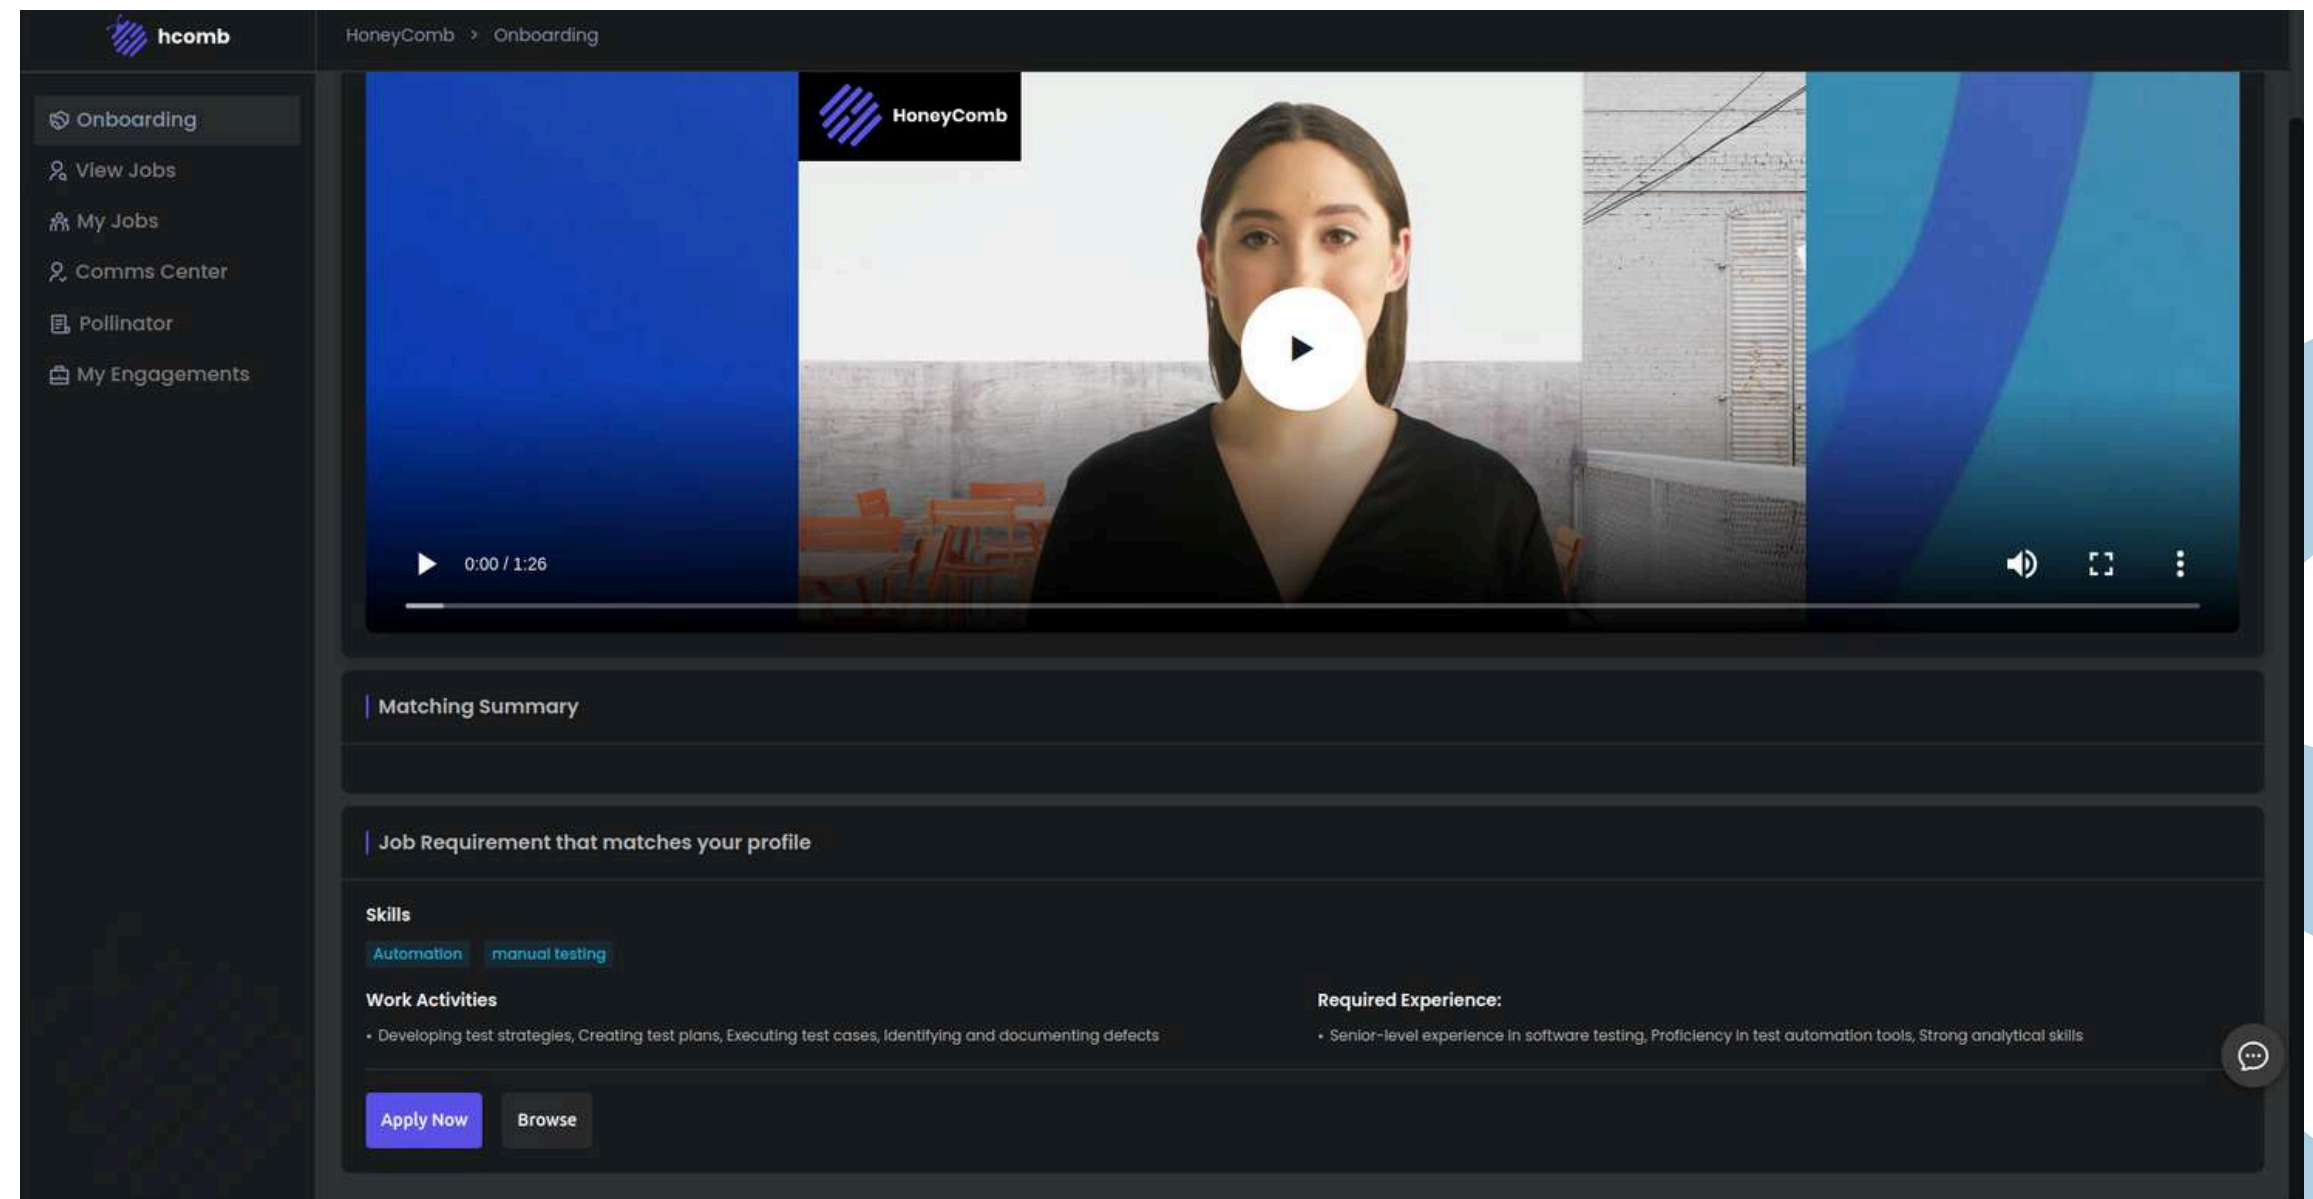

- A hiring and training platform that uses AI to match candidates with jobs.
- Automates the job posting process and conducts AI-powered interviews.
- Helps companies find the best talent quickly and efficiently.

Technology Stack:

- Frontend: React.js
- Backend: Node.js, Python, rabbitmq, n8n.io
- Database: PostgreSQL, Pinecone vector db
- AI Stack: OpenAI

Link:

- <https://www.hcomb.ai/>

- Woyce technologies and services Pvt Ltd

Incorporight – Secure Corporate Information Management

Features:

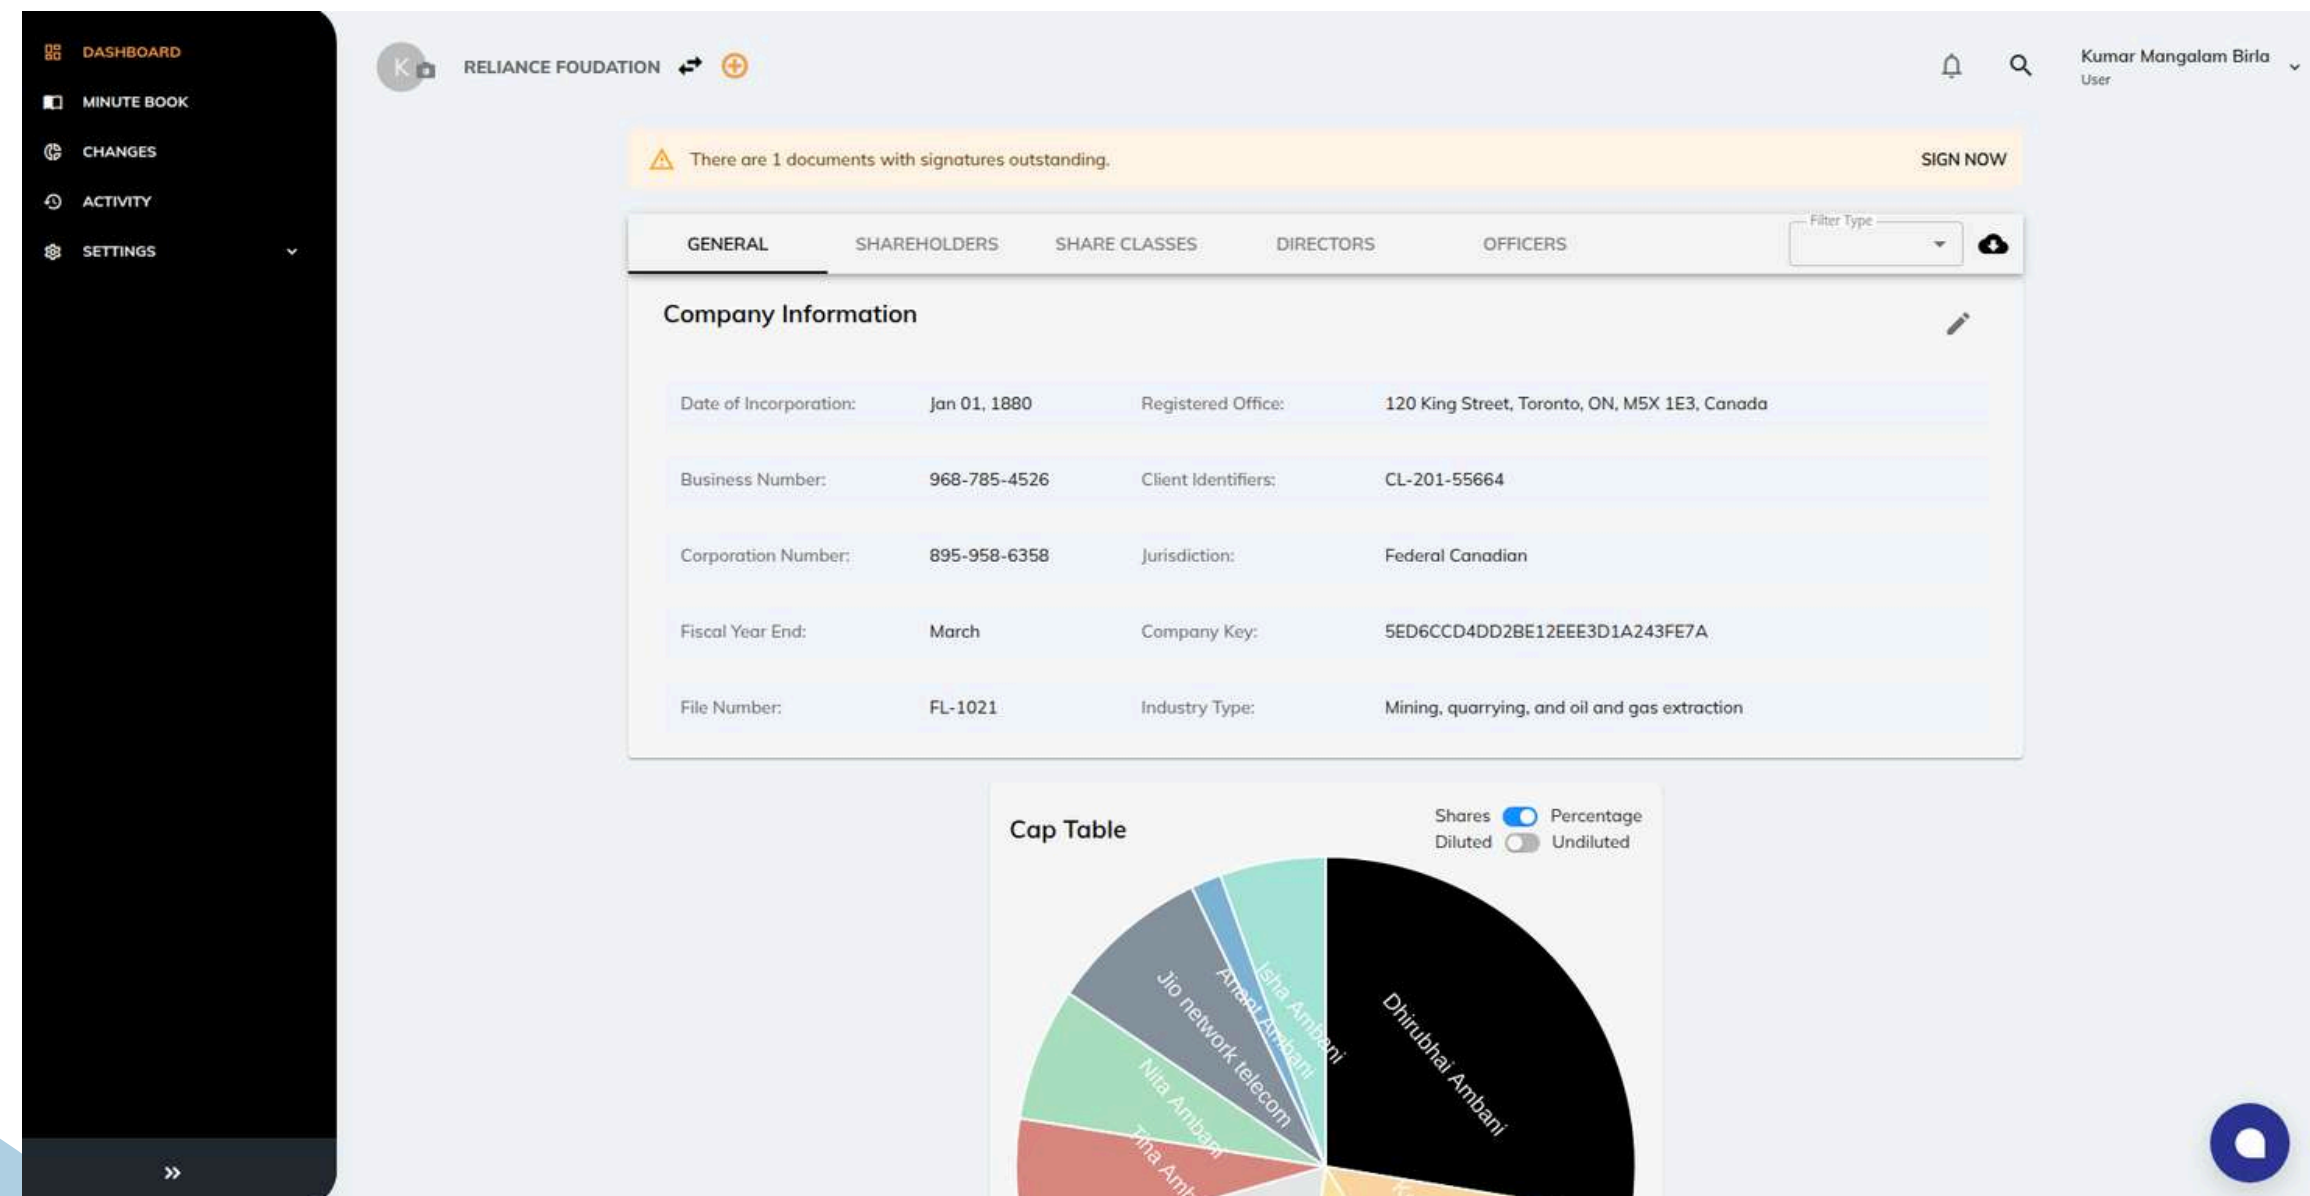

- A secure platform for managing company records, including shareholders, directors, and executives.
- Stores and protects sensitive company data with blockchain technology.
- Provides a structured way to track corporate governance and compliance.

Technology Stack:

- Frontend: React.js
- Backend: Node.js
- Database: MongoDB
- Security: Blockchain

Link:

- <https://incorporight.com/>

- Woyce technologies and services Pvt Ltd

Yellow Pad – AI for Legal Document Generation

Features:

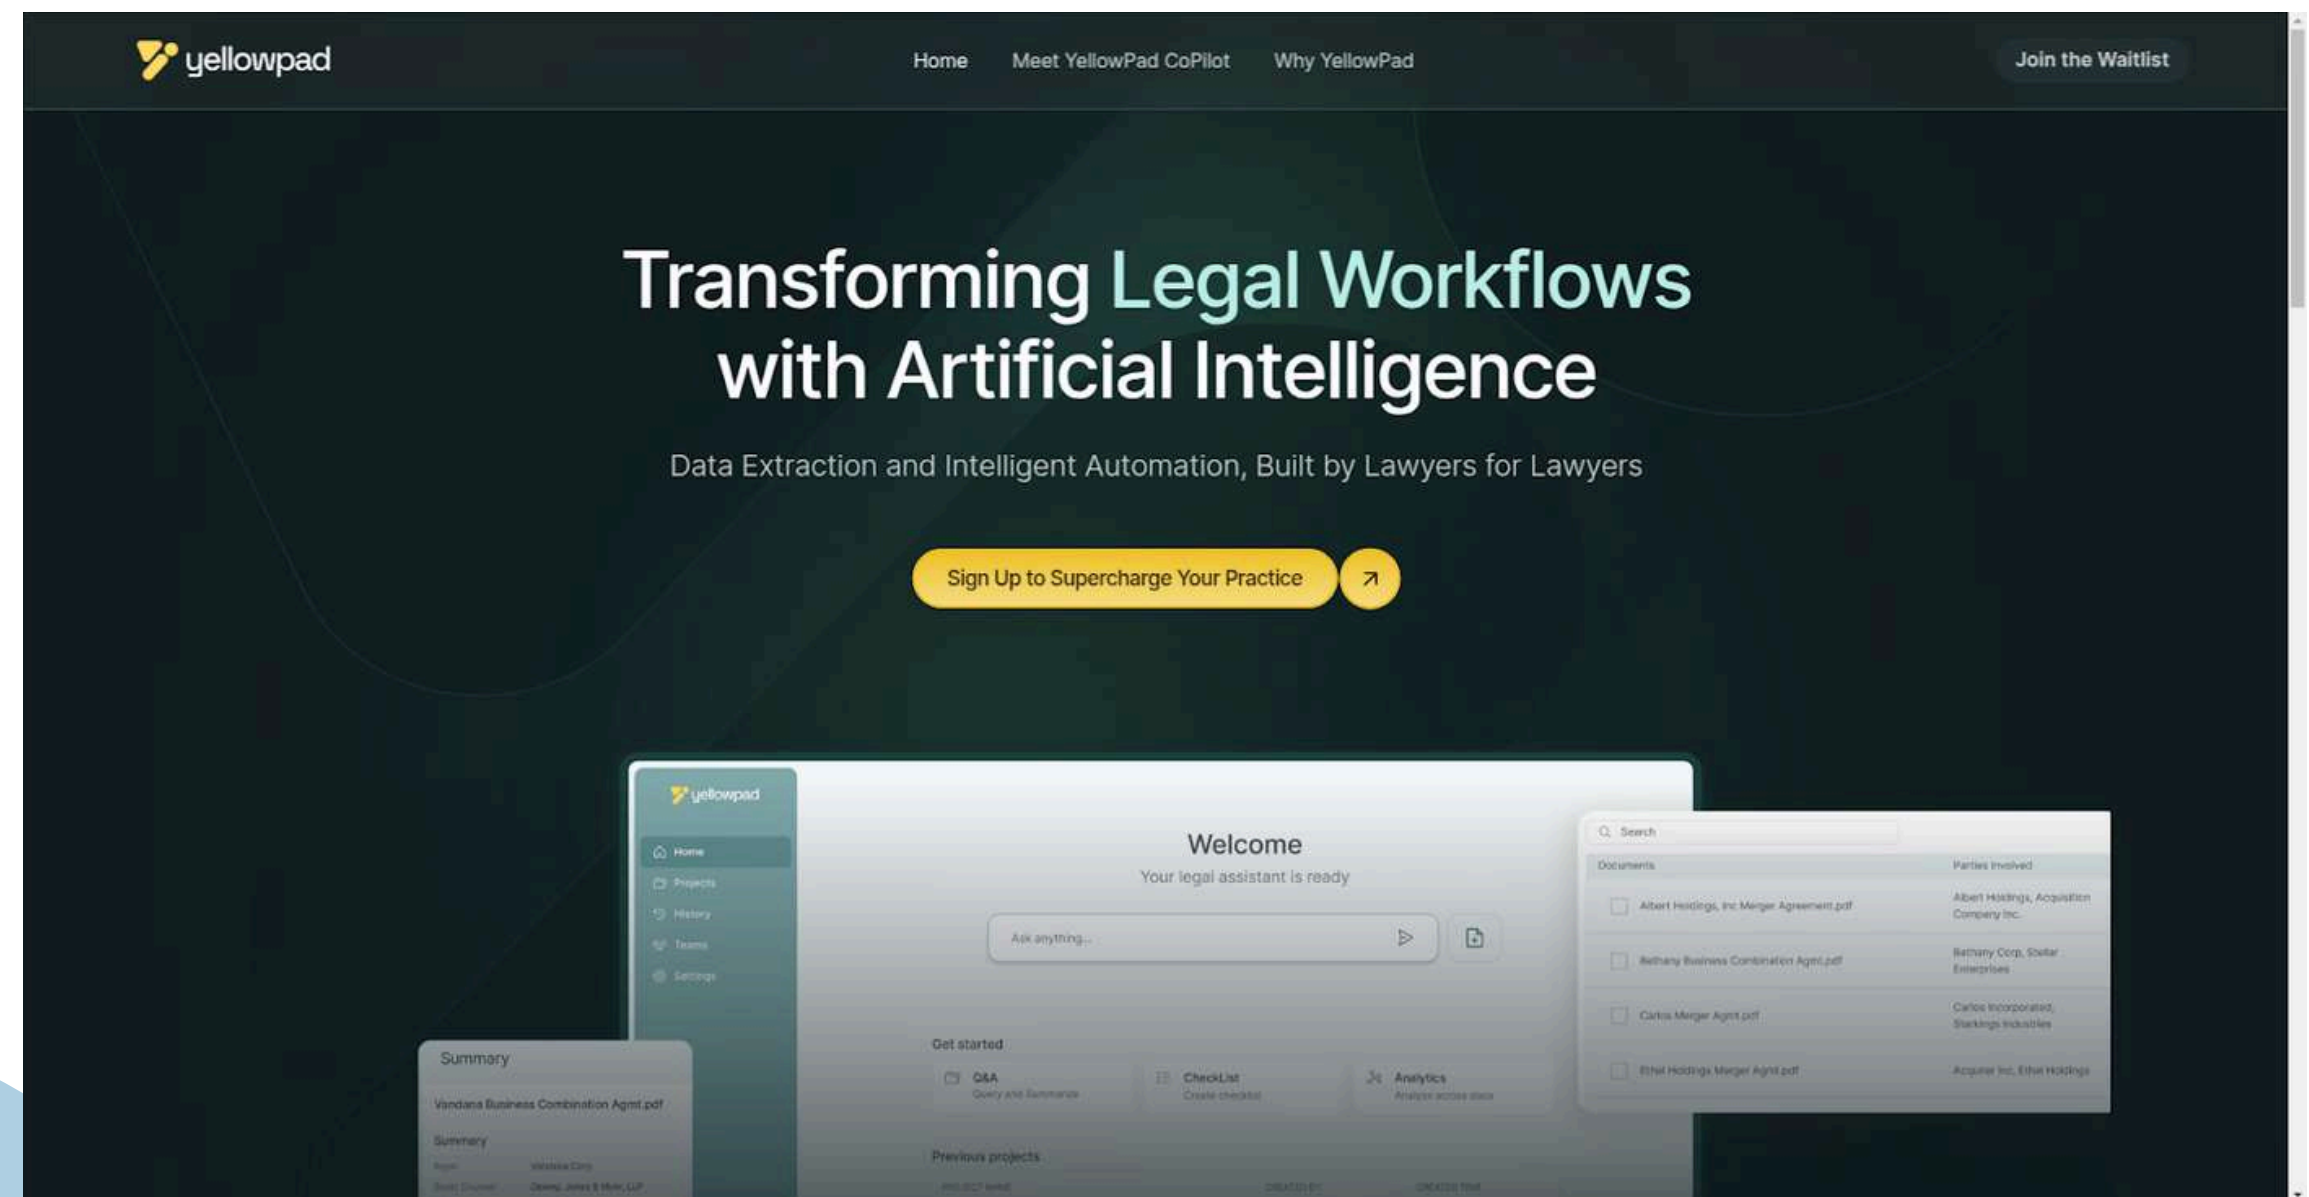

- An AI-powered platform that helps legal professionals create documents automatically.
- Reduces manual work and improves efficiency with AI-driven legal drafting.
- Provides templates and smart suggestions to speed up document creation.

Technology Stack:

- Frontend: React.js
- Backend: Node.js
- AI Stack: LangChain, OpenAI

Link:

- <https://yellowpad.ai/>

- Woyce technologies and services Pvt Ltd

Krone – AI-Powered Compliance & Consulting Platform

Features:

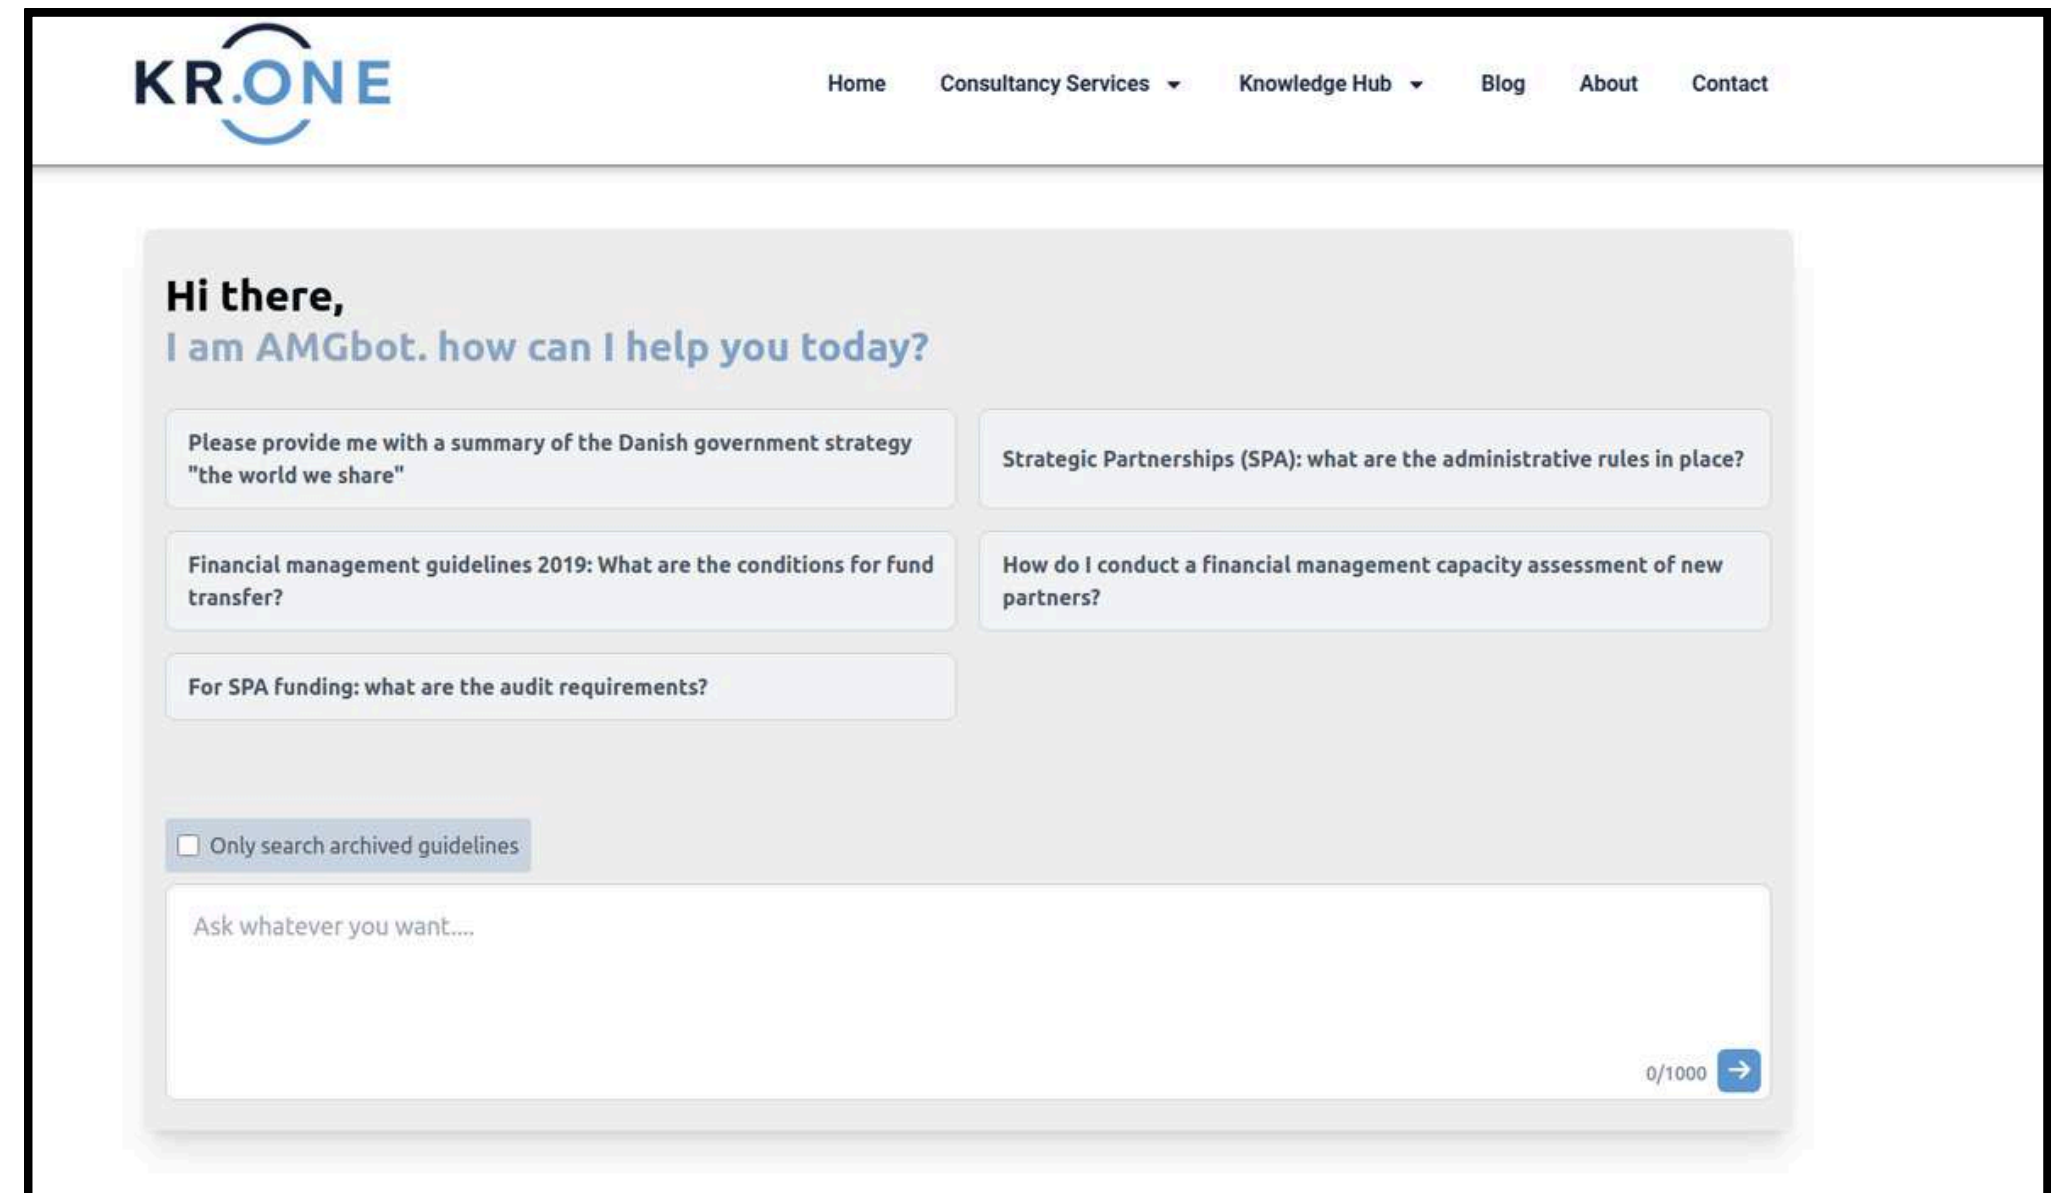

- A consultancy platform led by Christian Krone, specializing in compliance, anti-corruption, financial management, and ESG (Environmental, Social, and Governance).
- Provides expert insights and advisory services for businesses navigating complex regulations.

Technology Stack:

- Frontend: React.js
- Backend: Node.js
- Database: PostgreSQL
- AI Stack: OpenAI

Link:

- <https://www.krone.one/>

- Woyce technologies and services Pvt Ltd

FrontDesk Clinic – AI-Powered Healthcare Automation

Features:

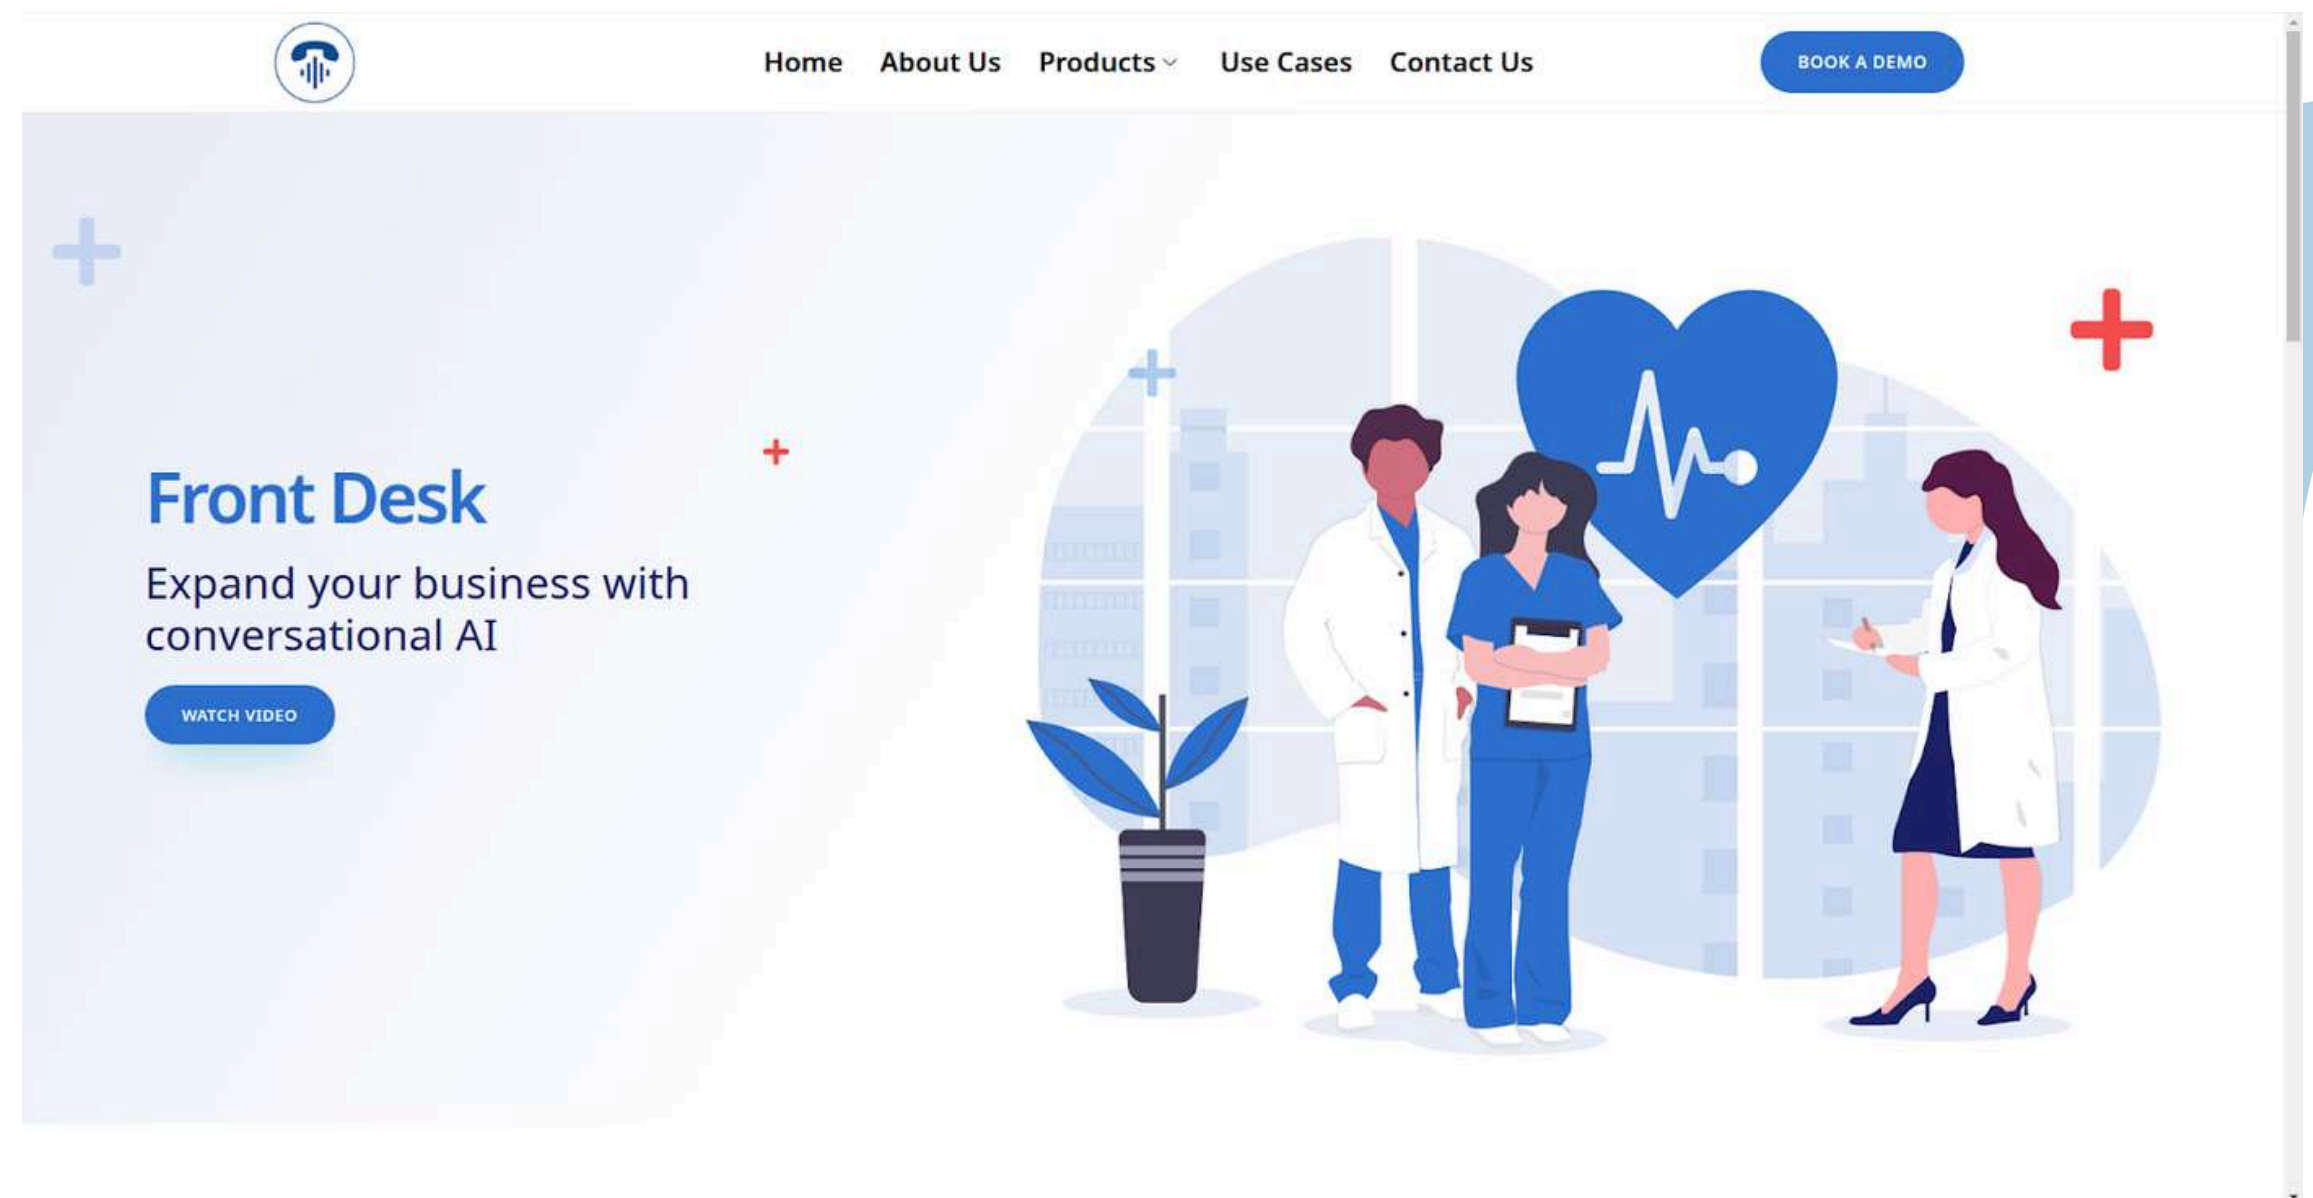

- Automates appointment scheduling and sends reminders to patients.
- Allows patients to refill prescriptions and receive lab result notifications.
- Verifies insurance details and processes claims easily.
- AI-powered virtual assistant answers patient queries and streamlines onboarding.

Technology Stack:

- Frontend: AngularJS
- Backend: Node.js
- Database: PostgreSQL
- AI Stack: OpenAI, Twilio

Link:

- <https://frontdesk.clinic/>

- Woyce technologies and services Pvt Ltd

AdvancedCare – AI-Powered Electronic Health Records

Features:

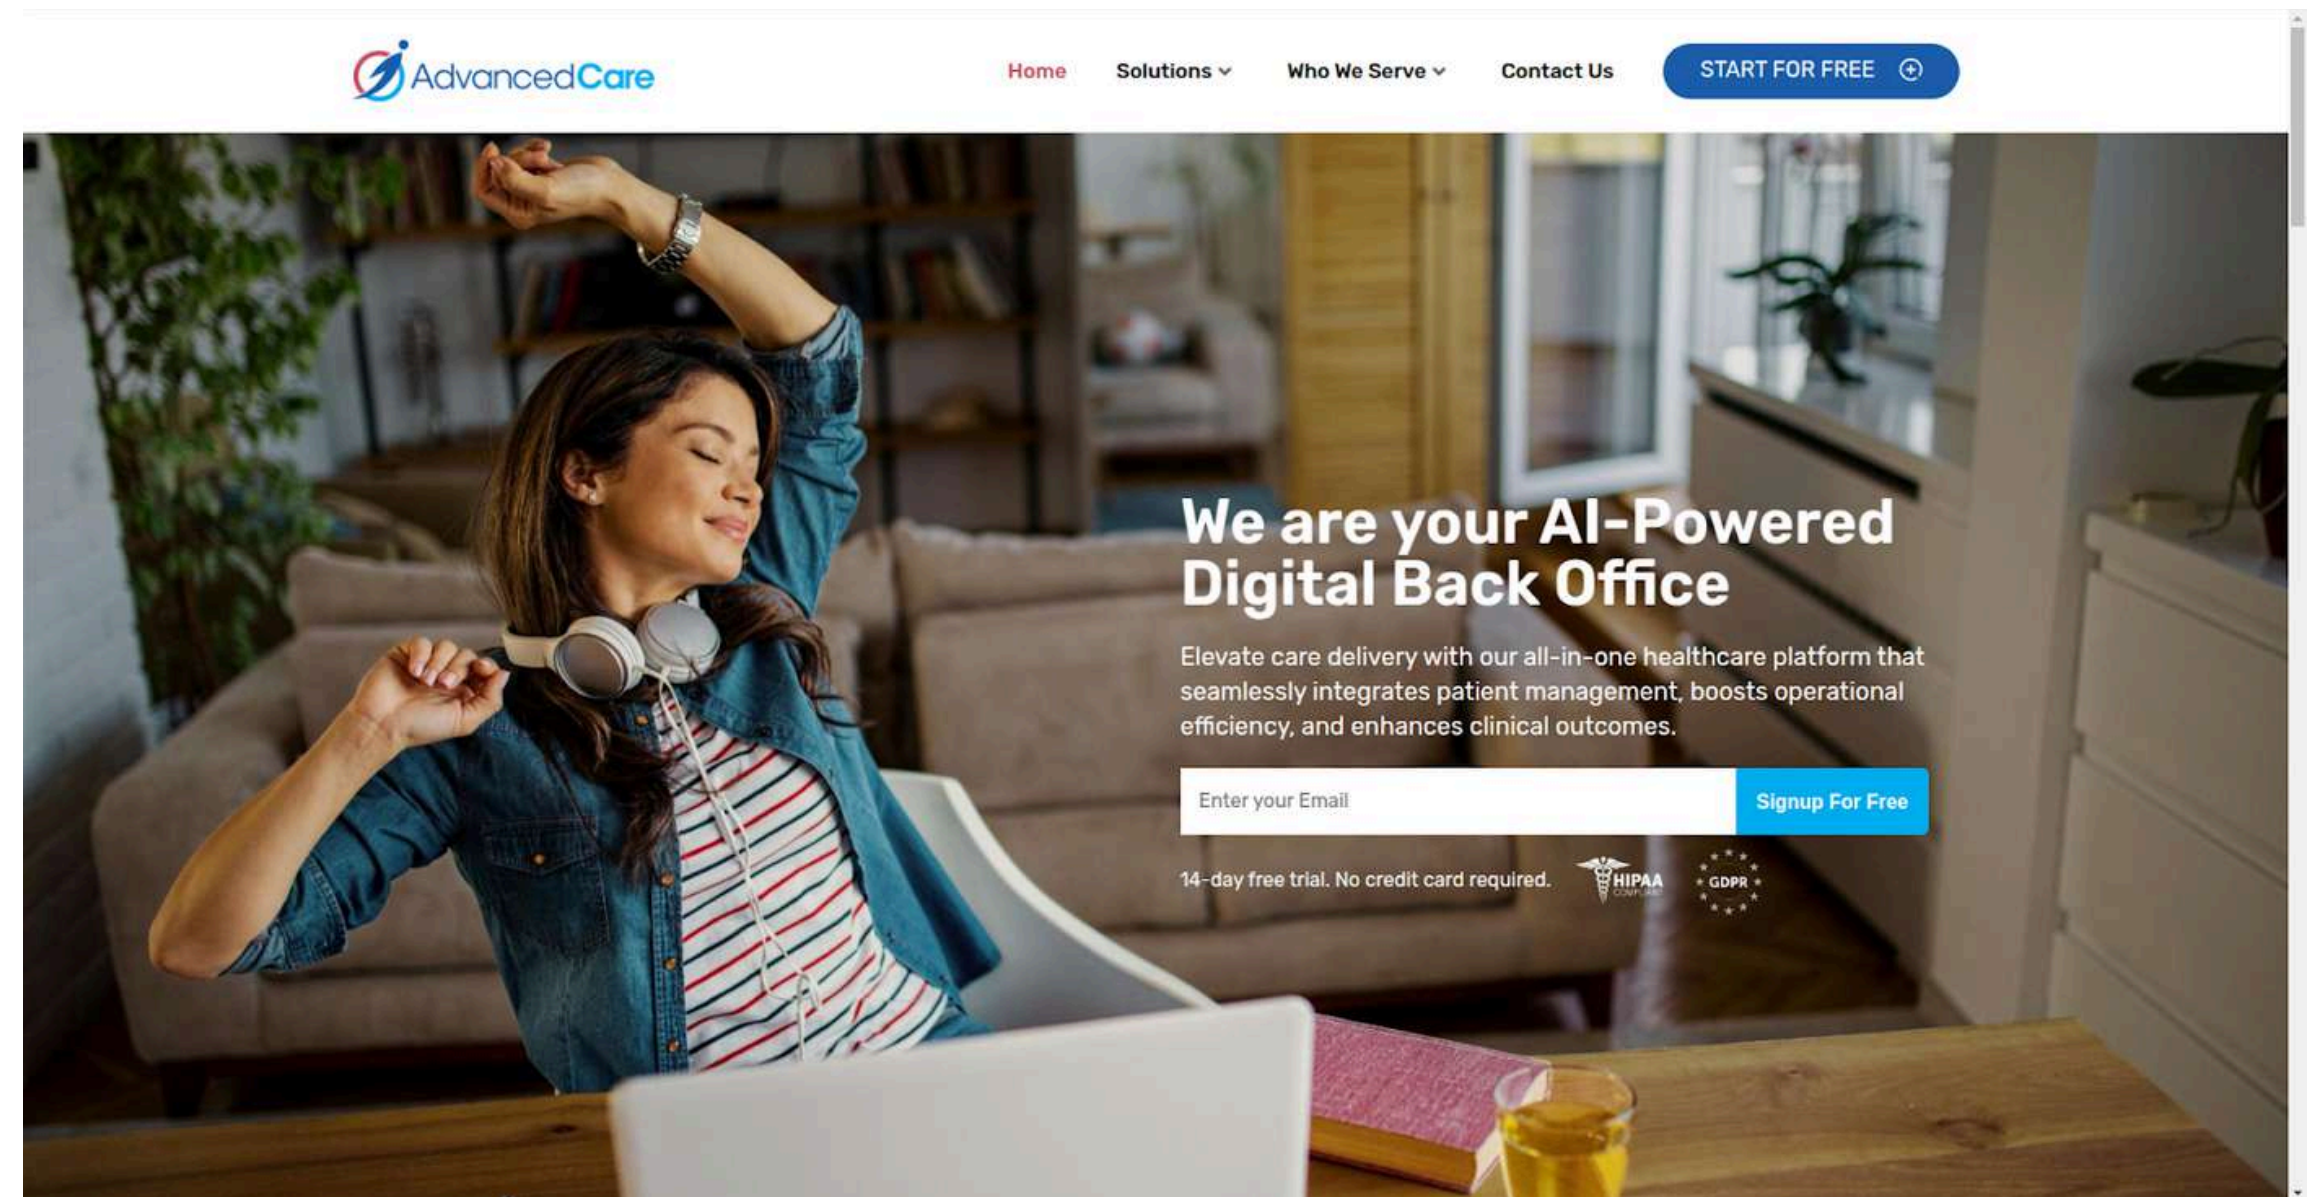

- A complete electronic health record (EHR) system that helps doctors and hospitals manage patient data.
- Includes telehealth services for remote patient consultations.
- Supports insurance claims processing to simplify billing.

Technology Stack:

- Frontend: AngularJS
- Backend: Node.js
- Database: PostgreSQL
- AI Stack: OpenAI, Twilio

Link:

- <https://advancedcare.com/>

- Woyce technologies and services Pvt Ltd

PCO Intelligence

Features:

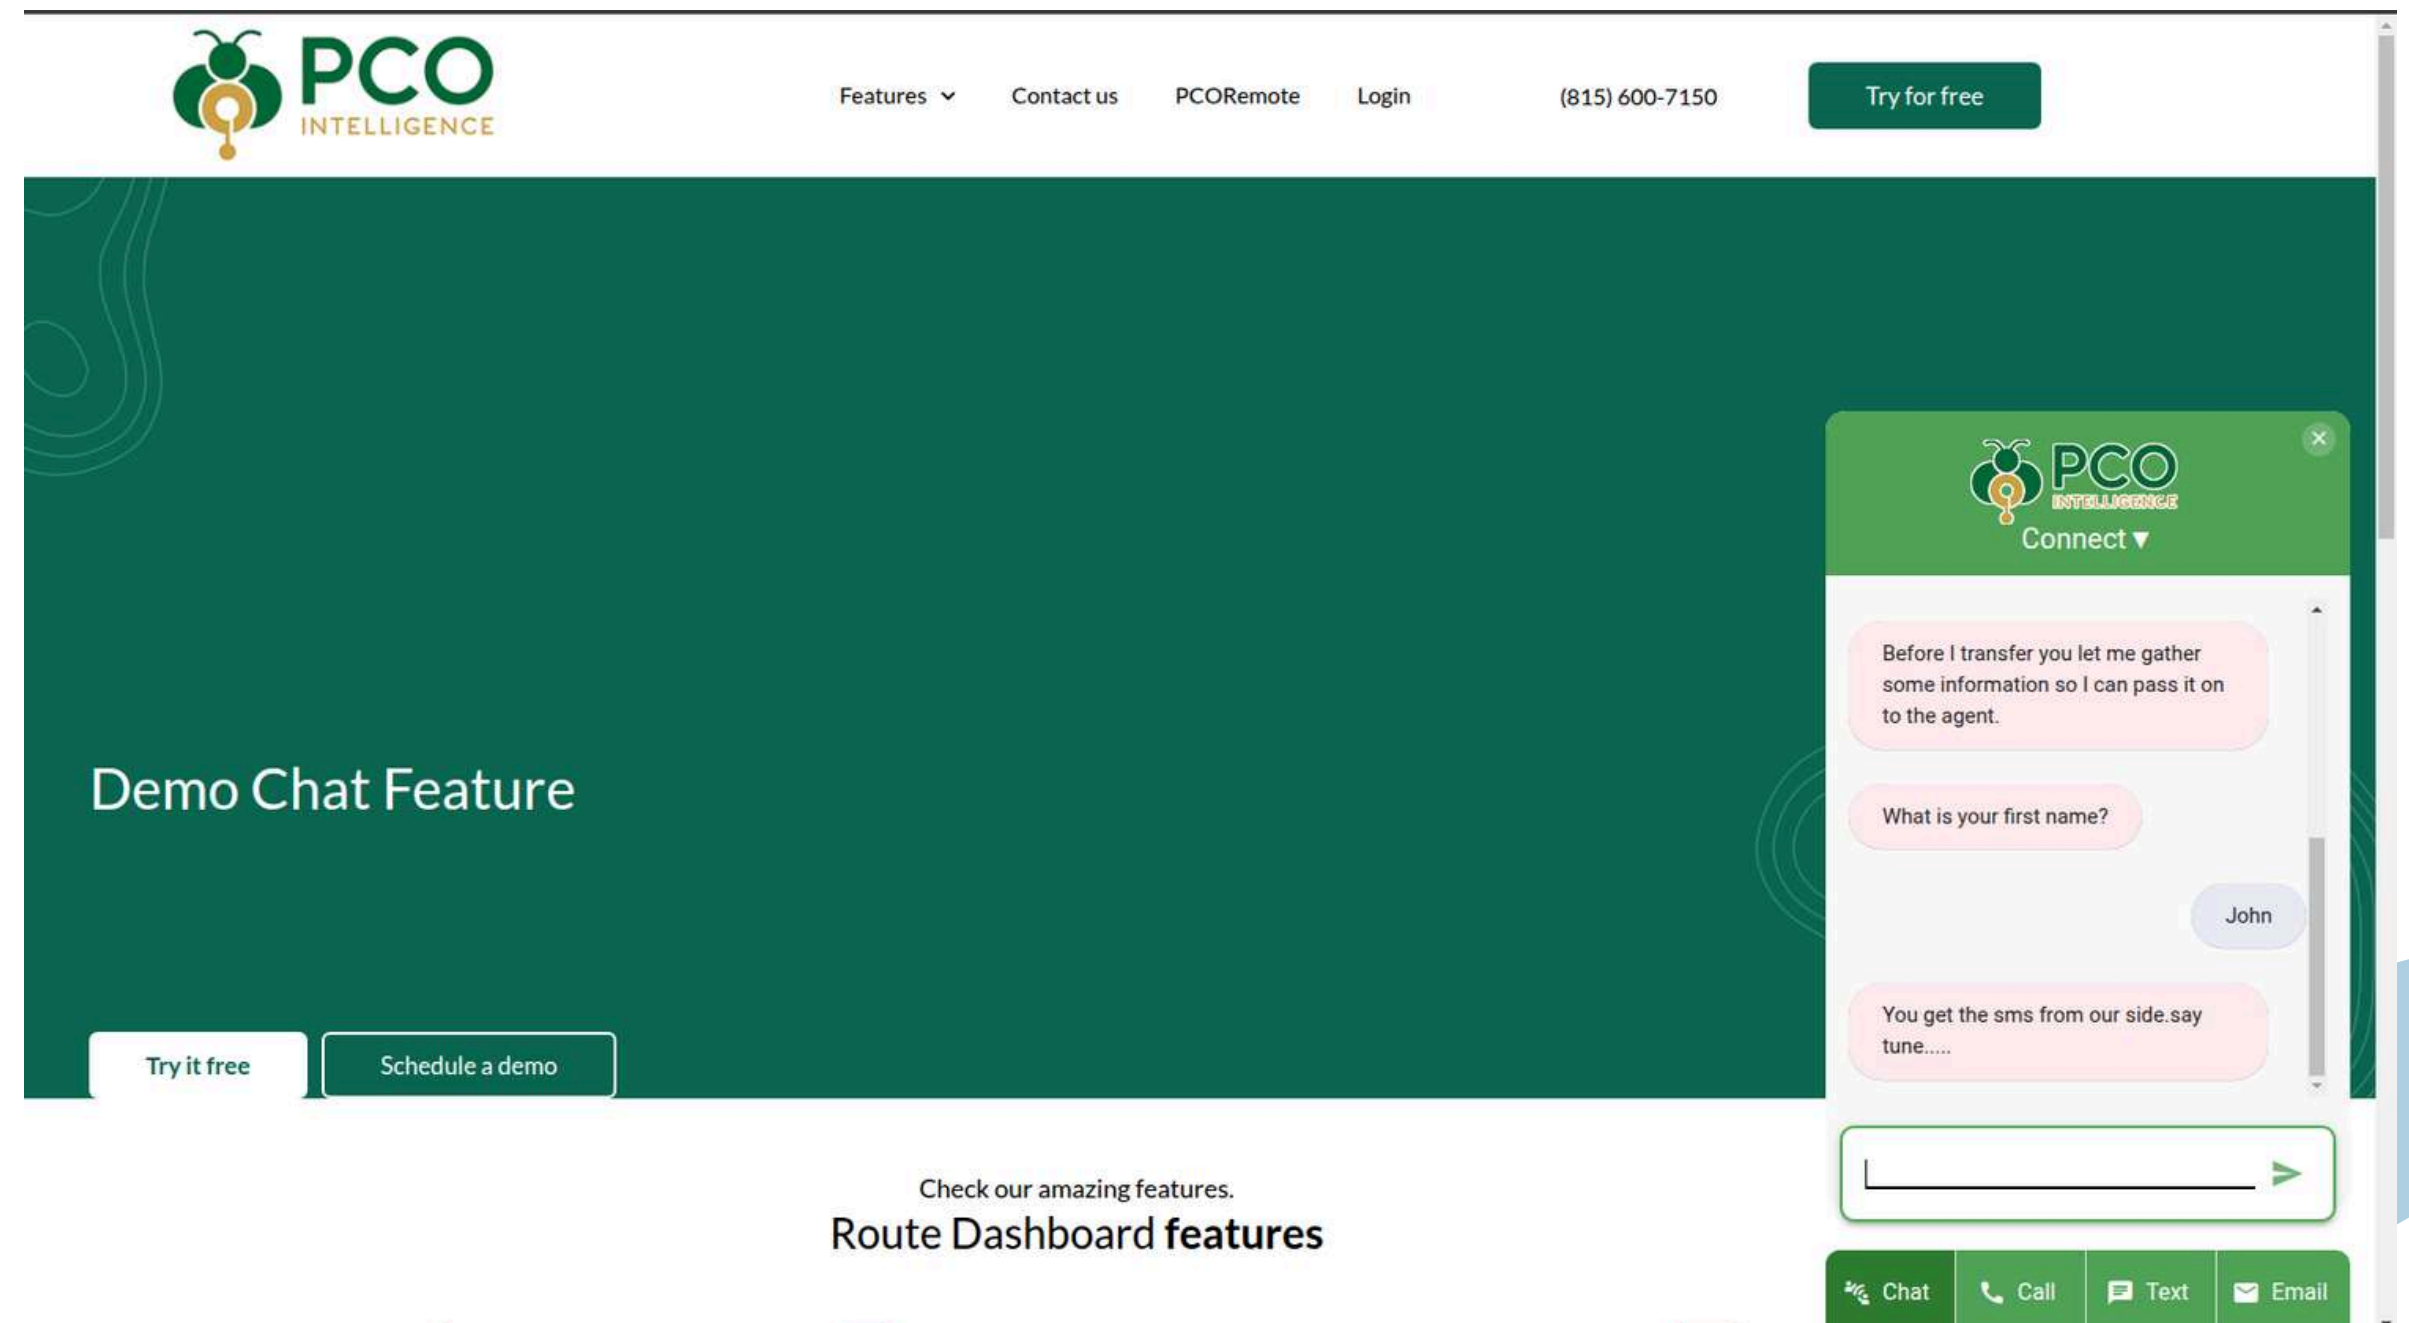

- Uses Amazon Lex to handle customer queries through AI-powered conversations.
- Integrates Amazon Connect to provide a cloud-based call center solution.
- Allows businesses to automate customer support with voice and chatbot interactions.
- Custom widget support enables businesses to enhance the user experience with personalized features.

Technology Stack:

- Cloud Services: AWS Lambda, AWS Functions, AWS API Gateway
- AI & Voice: Amazon Lex, Amazon Connect

Link:

- Woyce technologies and services Pvt Ltd

Reknew AI

Features:

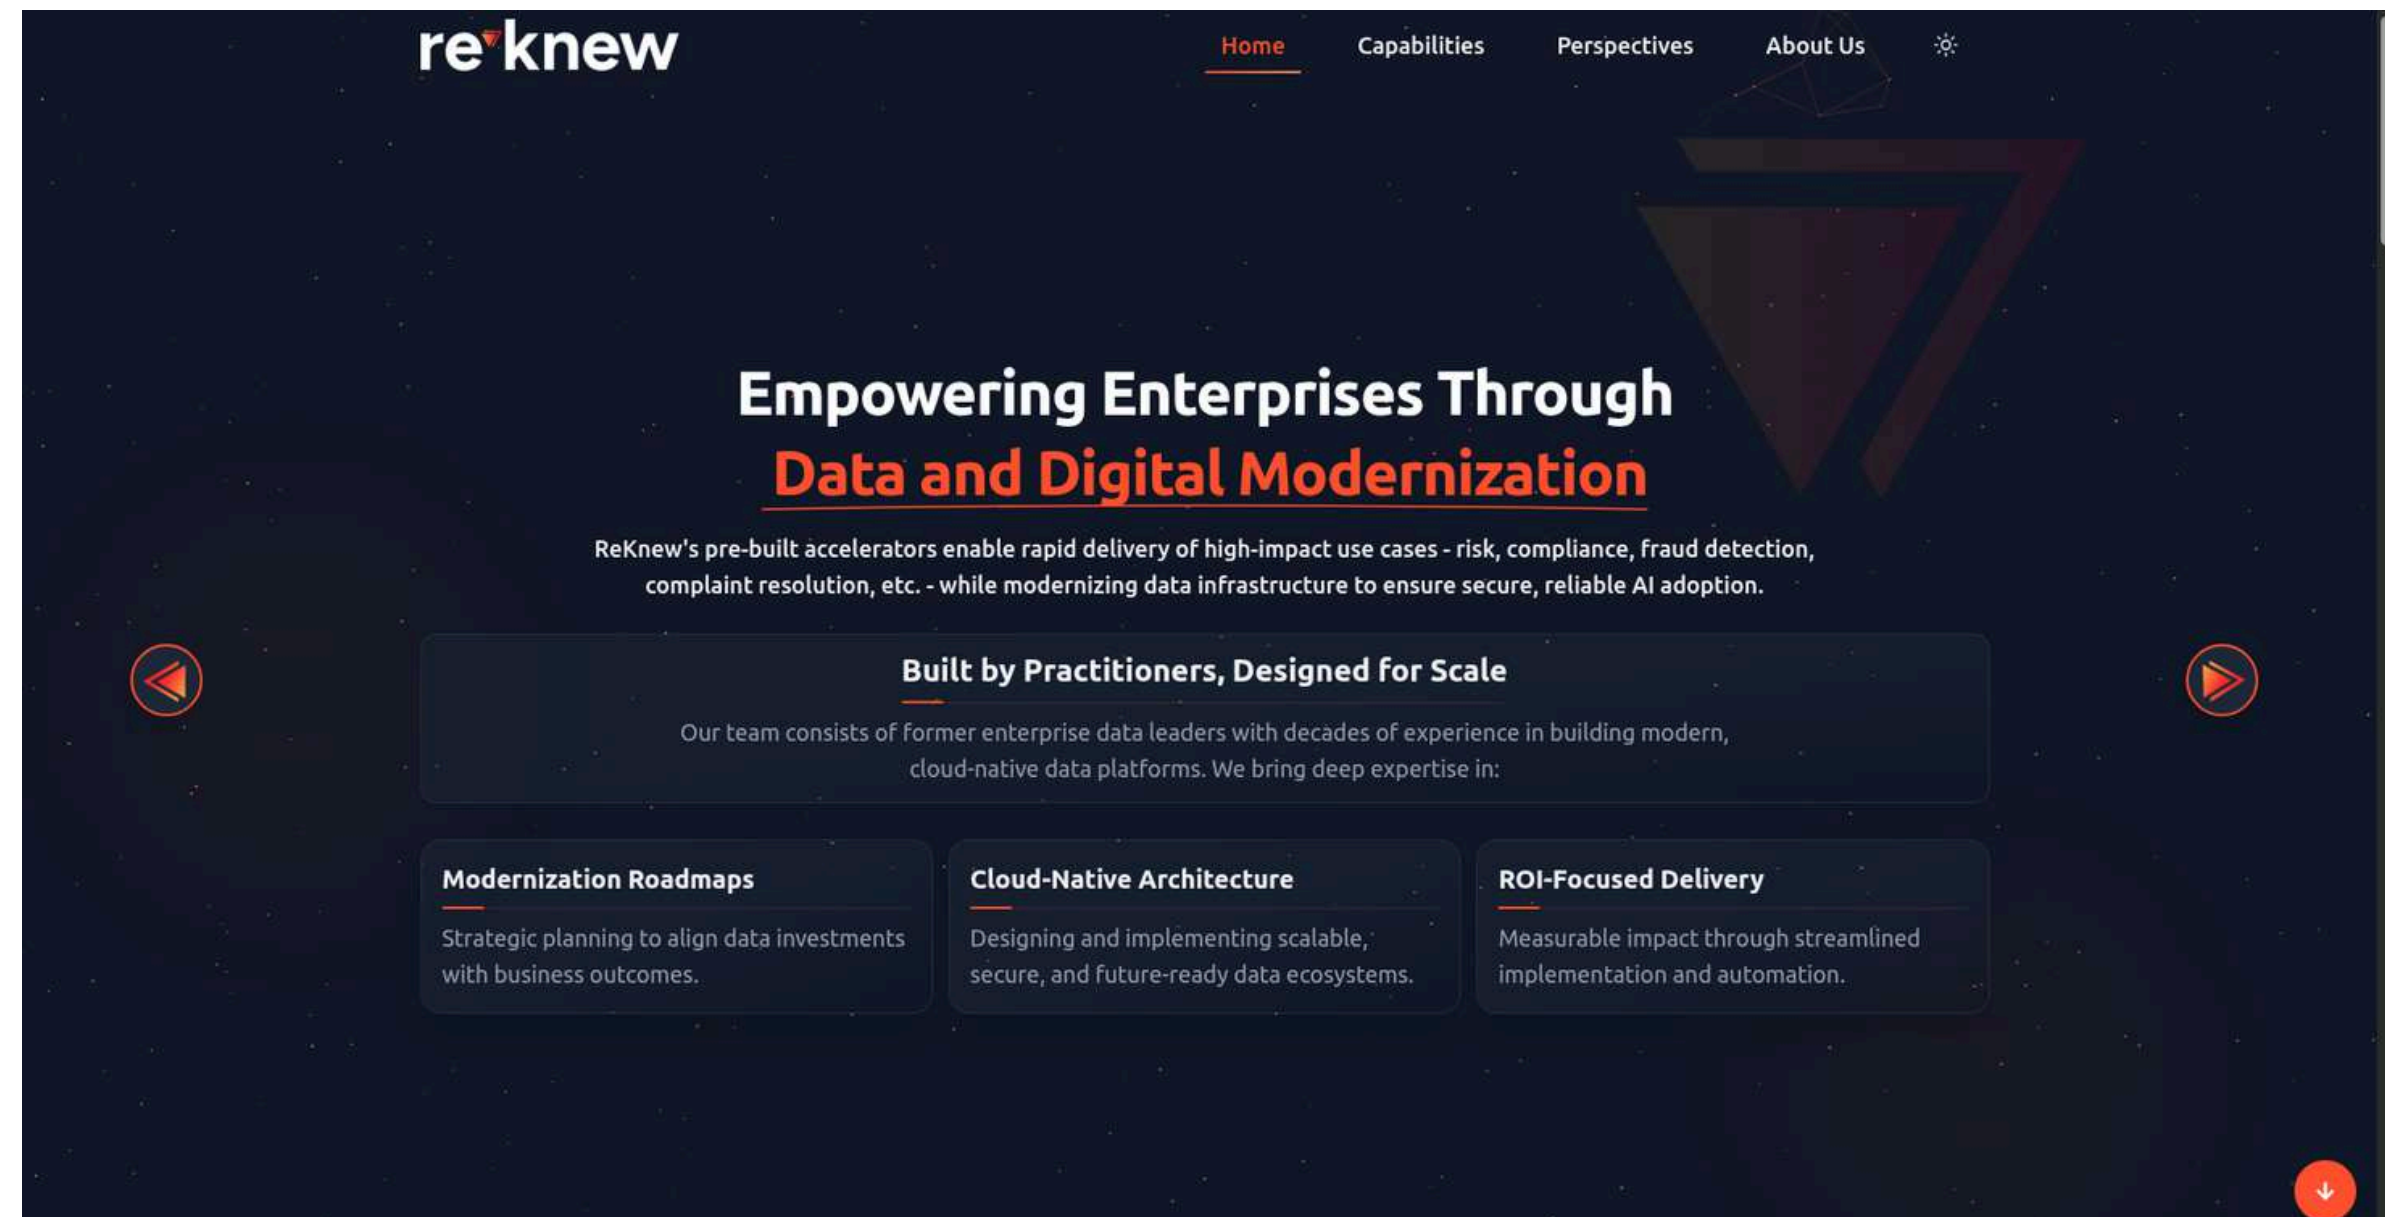

- Helps enterprises **modernize data platforms** for improved efficiency and scalability.
- Accelerates **AI adoption** to enable smarter insights and decision-making.
- Implements **intelligent automation** to streamline repetitive tasks and reduce manual effort.
- Focuses on digital transformation—upgrading legacy systems and driving enterprise-level modernization.

Technology Stack:

- Frontend: React.js
- Backend: Node.js, Python
- Database: PostgreSQL, MongoDB, Redis
- AI Stack: OpenAI, LLMs, NLP libraries

Link:

- <https://reknew.ai/>

- Woyce technologies and services Pvt Ltd

VetWise

Features:

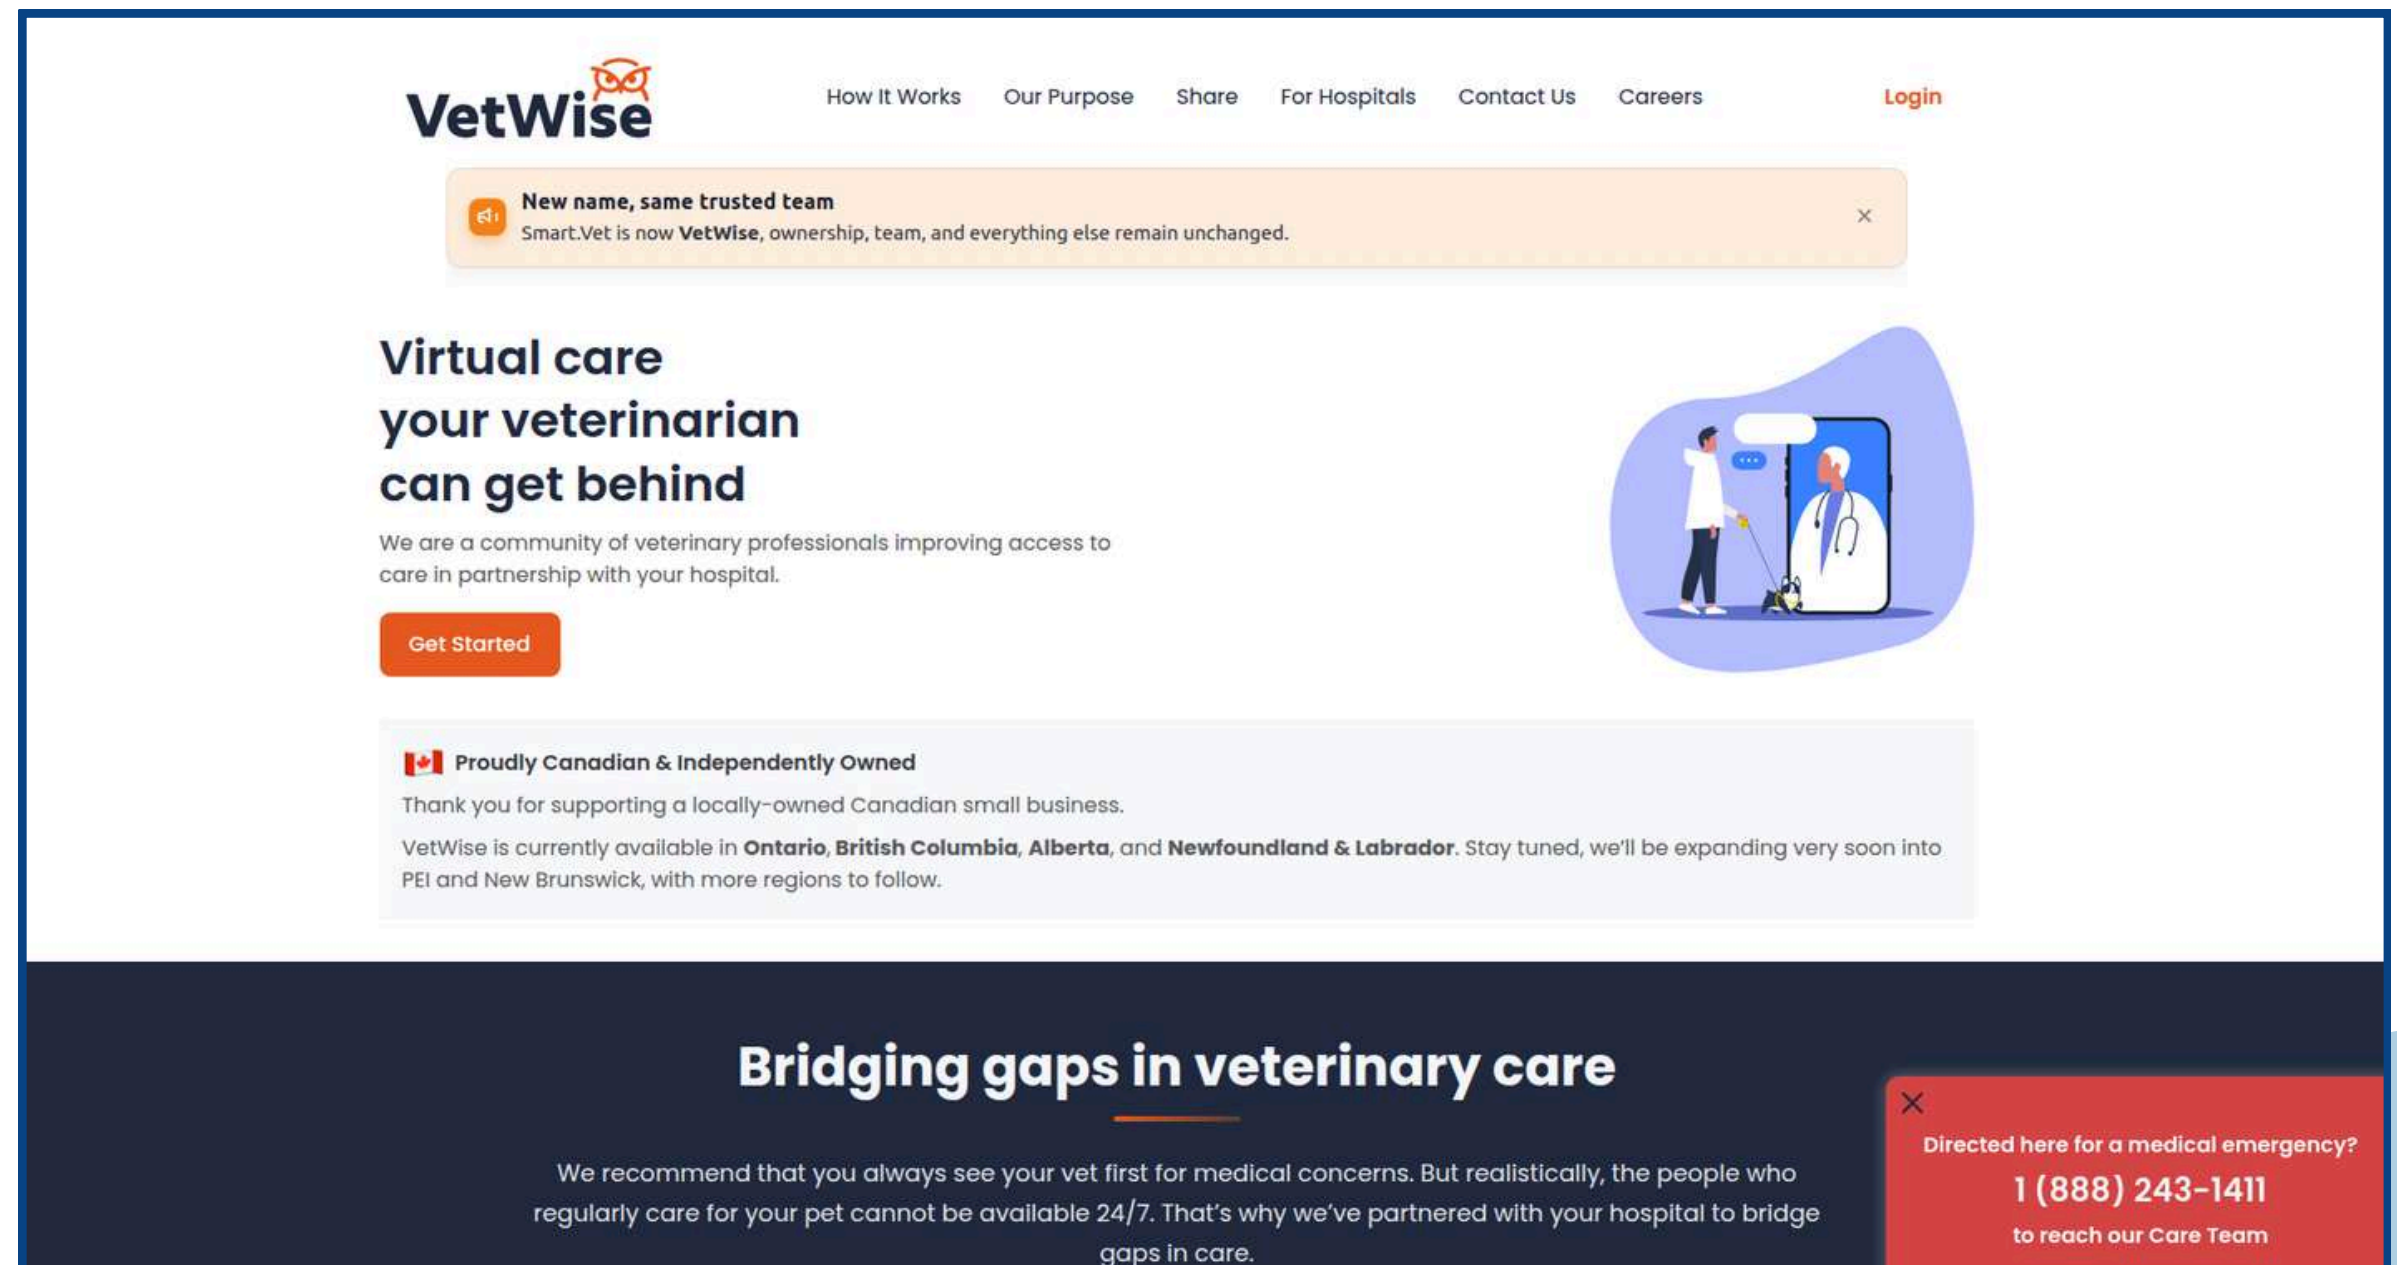

- Offers 24/7 virtual veterinary consultations across Canada.
- Easy 3-step booking: select service, complete booking, meet a vet.

Technology Stack:

- Frontend: React.js
- Backend: Node.js, Python
- Database: PostgreSQL, MongoDB, Redis
- Cloud Infrastructure: AWS Cloud for scalable hosting, storage, and video streaming capabilities

Link:

- <https://getvetwise.com/>

- Woyce technologies and services Pvt Ltd

OmniAI Chatbot

Features:

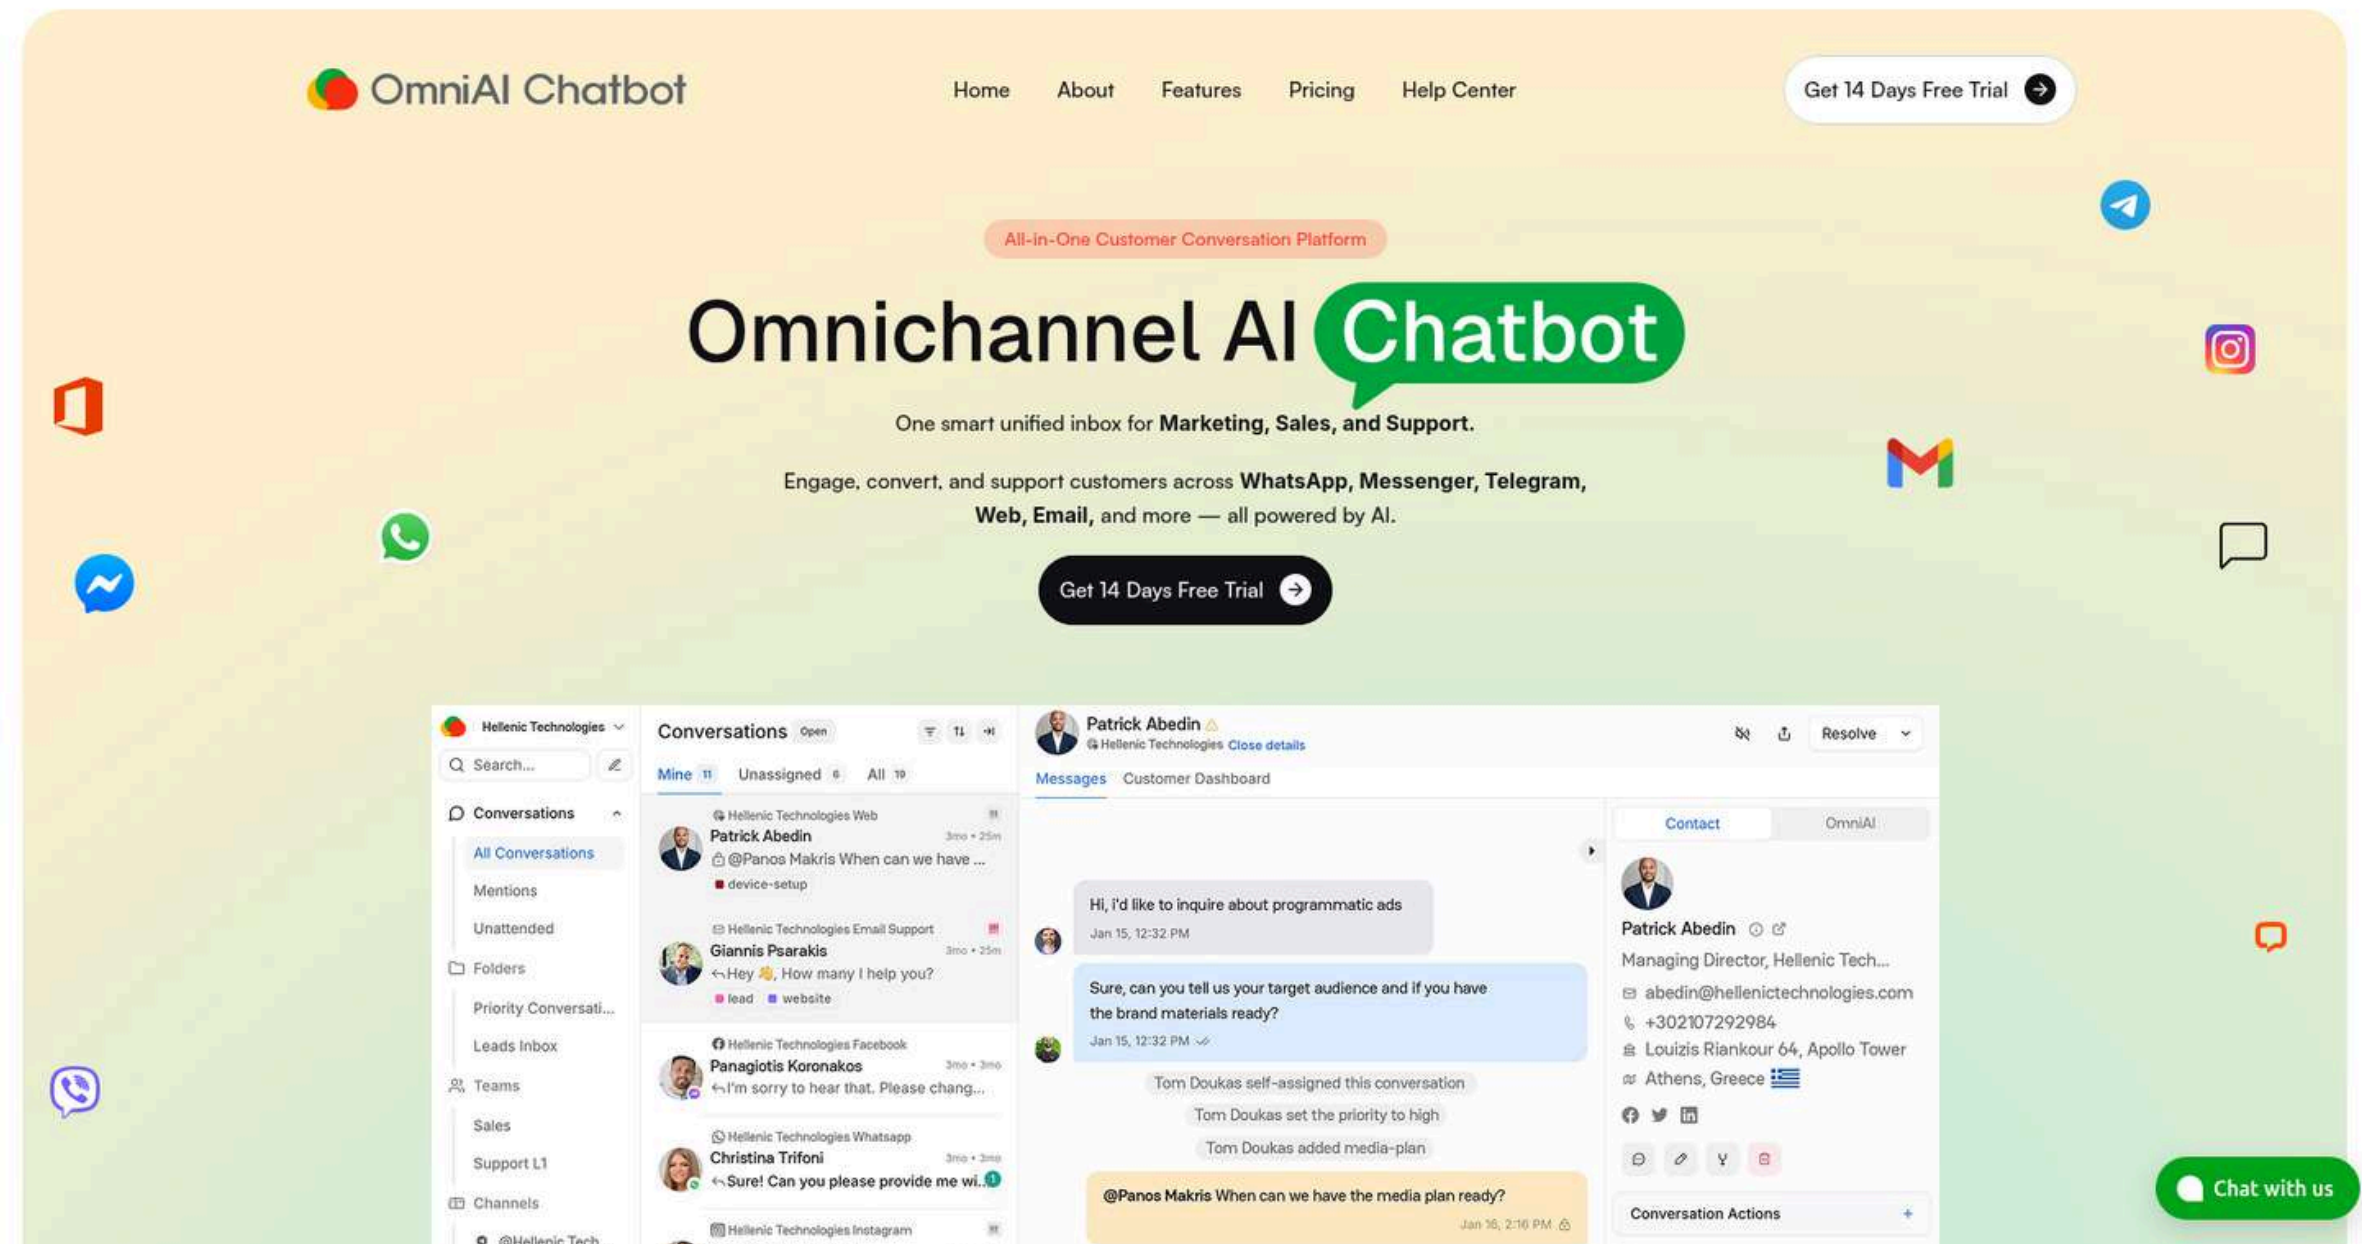

- Unified inbox for WhatsApp, Instagram, Email & more.
- AI replies with sentiment detection & smooth handoffs.
- Shopify integration for orders, carts & product sync.
- Mobile apps, analytics & automation for support teams.

Technology Stack:

- Frontend: React.js
- Backend: Node.js, Python
- Database: PostgreSQL, MongoDB, Redis
- AI Stack: LLMs, Dialogflow3
- E-commerce Integration: Shopify API

Link:

- <https://omniaichatbot.com/>

- Woyce technologies and services Pvt Ltd

Servicenow Dashboard

Features:

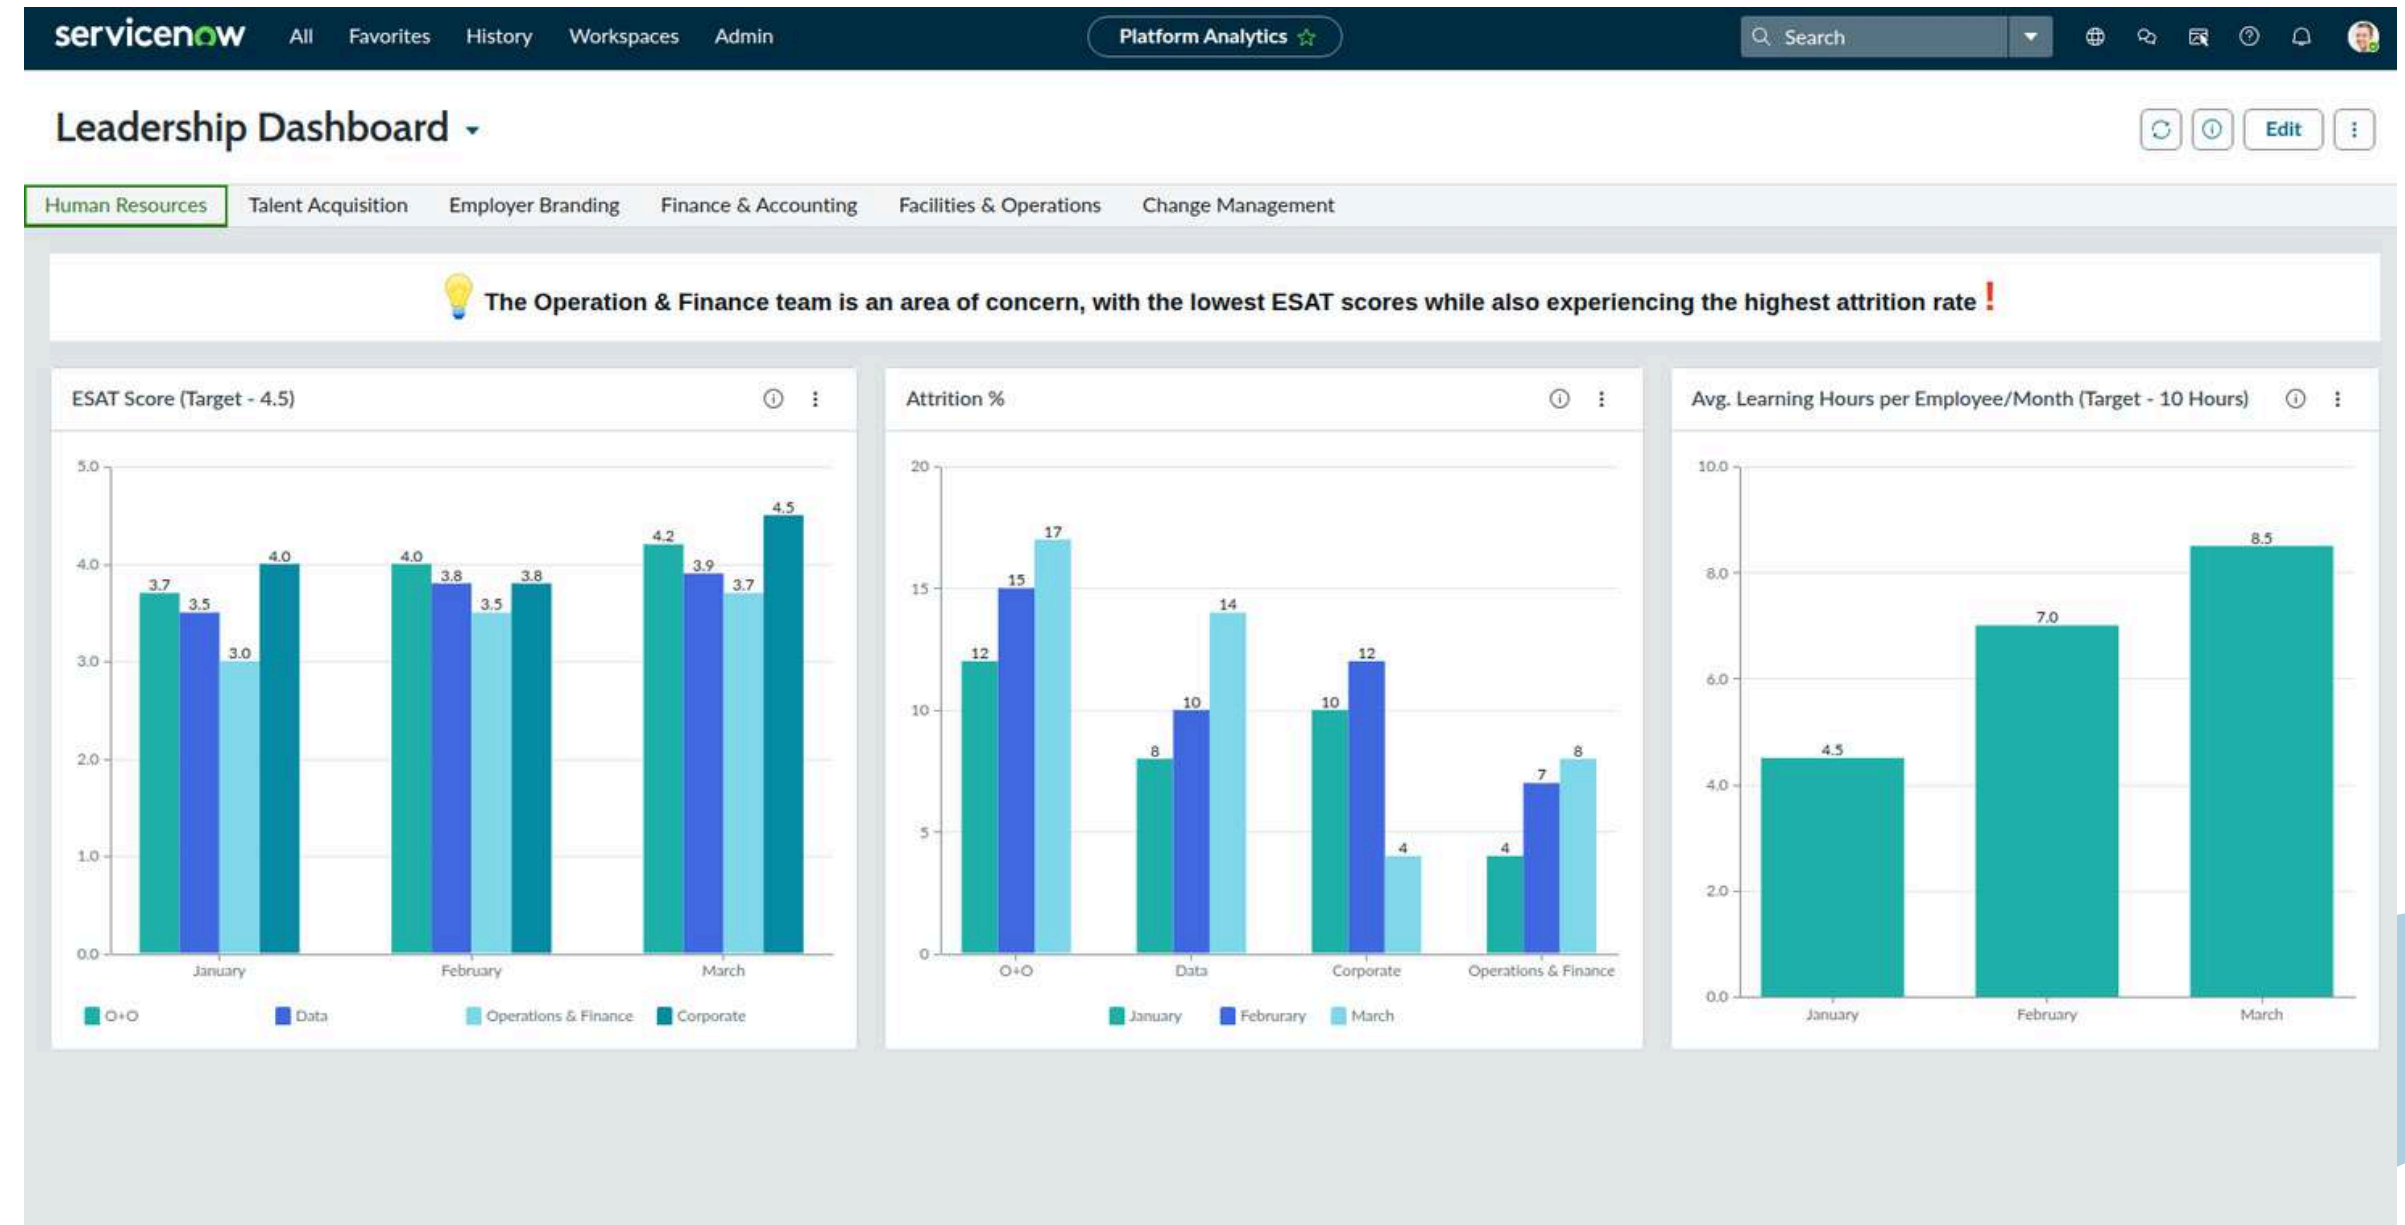

- Real-time insights with customizable widgets and KPI tracking.
- Interactive analytics for IT, HR, and business operations.
- Automated reporting and alerts to monitor performance and incidents.
- Role-based views for personalized dashboards and data access control.

Technology Stack:

- Reporting & Analytics: Performance Analytics, real-time widgets, and dashboard KPIs
- Cloud Infrastructure: Hosted on ServiceNow-managed cloud (multi-tenant, scalable)

Link:

- <https://www.servicenow.com/>

- Woyce technologies and services Pvt Ltd

AIVA Chat

Features:

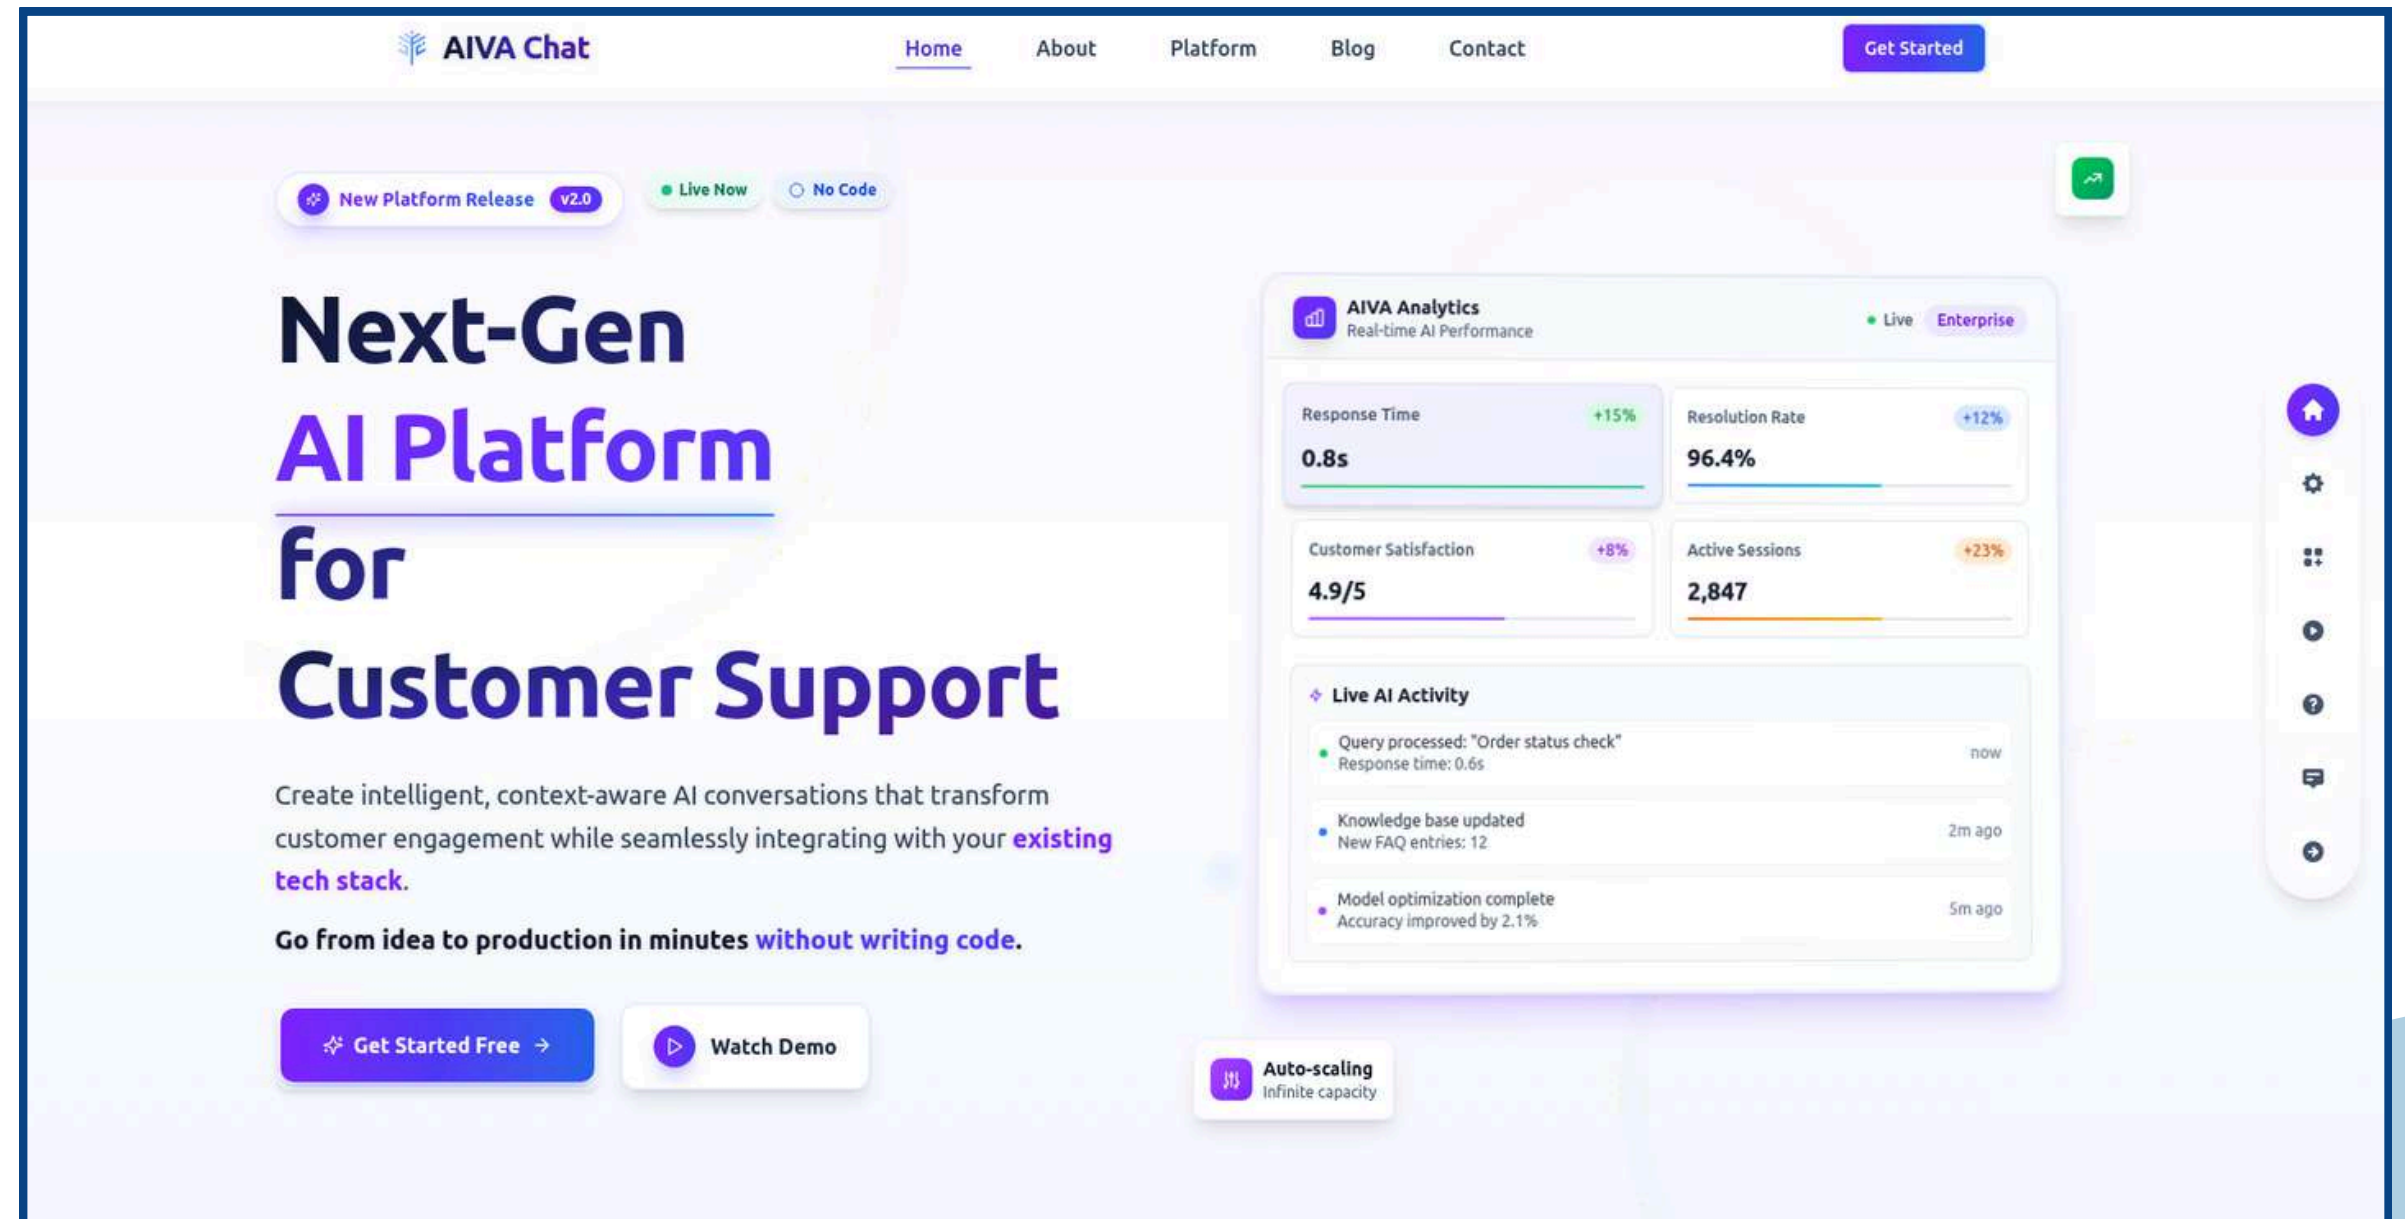

- Create voice chatbots instantly with a number and a prompt.
- Add a website chat widget with quick setup.
- Use voice call assistants with recordings and logs.
- Track performance with built-in analytics.
- Automate voice and chat interactions for smoother communication.

Technology Stack:

- Frontend: React.js
- Backend: Node.js, Python
- Database: PostgreSQL
- AI Stack: OpenAI
- Cloud : AWS
- 3rd Party: Twilio Integration

- Woyce technologies and services Pvt Ltd

AI Chatbot for Chroma Data

Features:

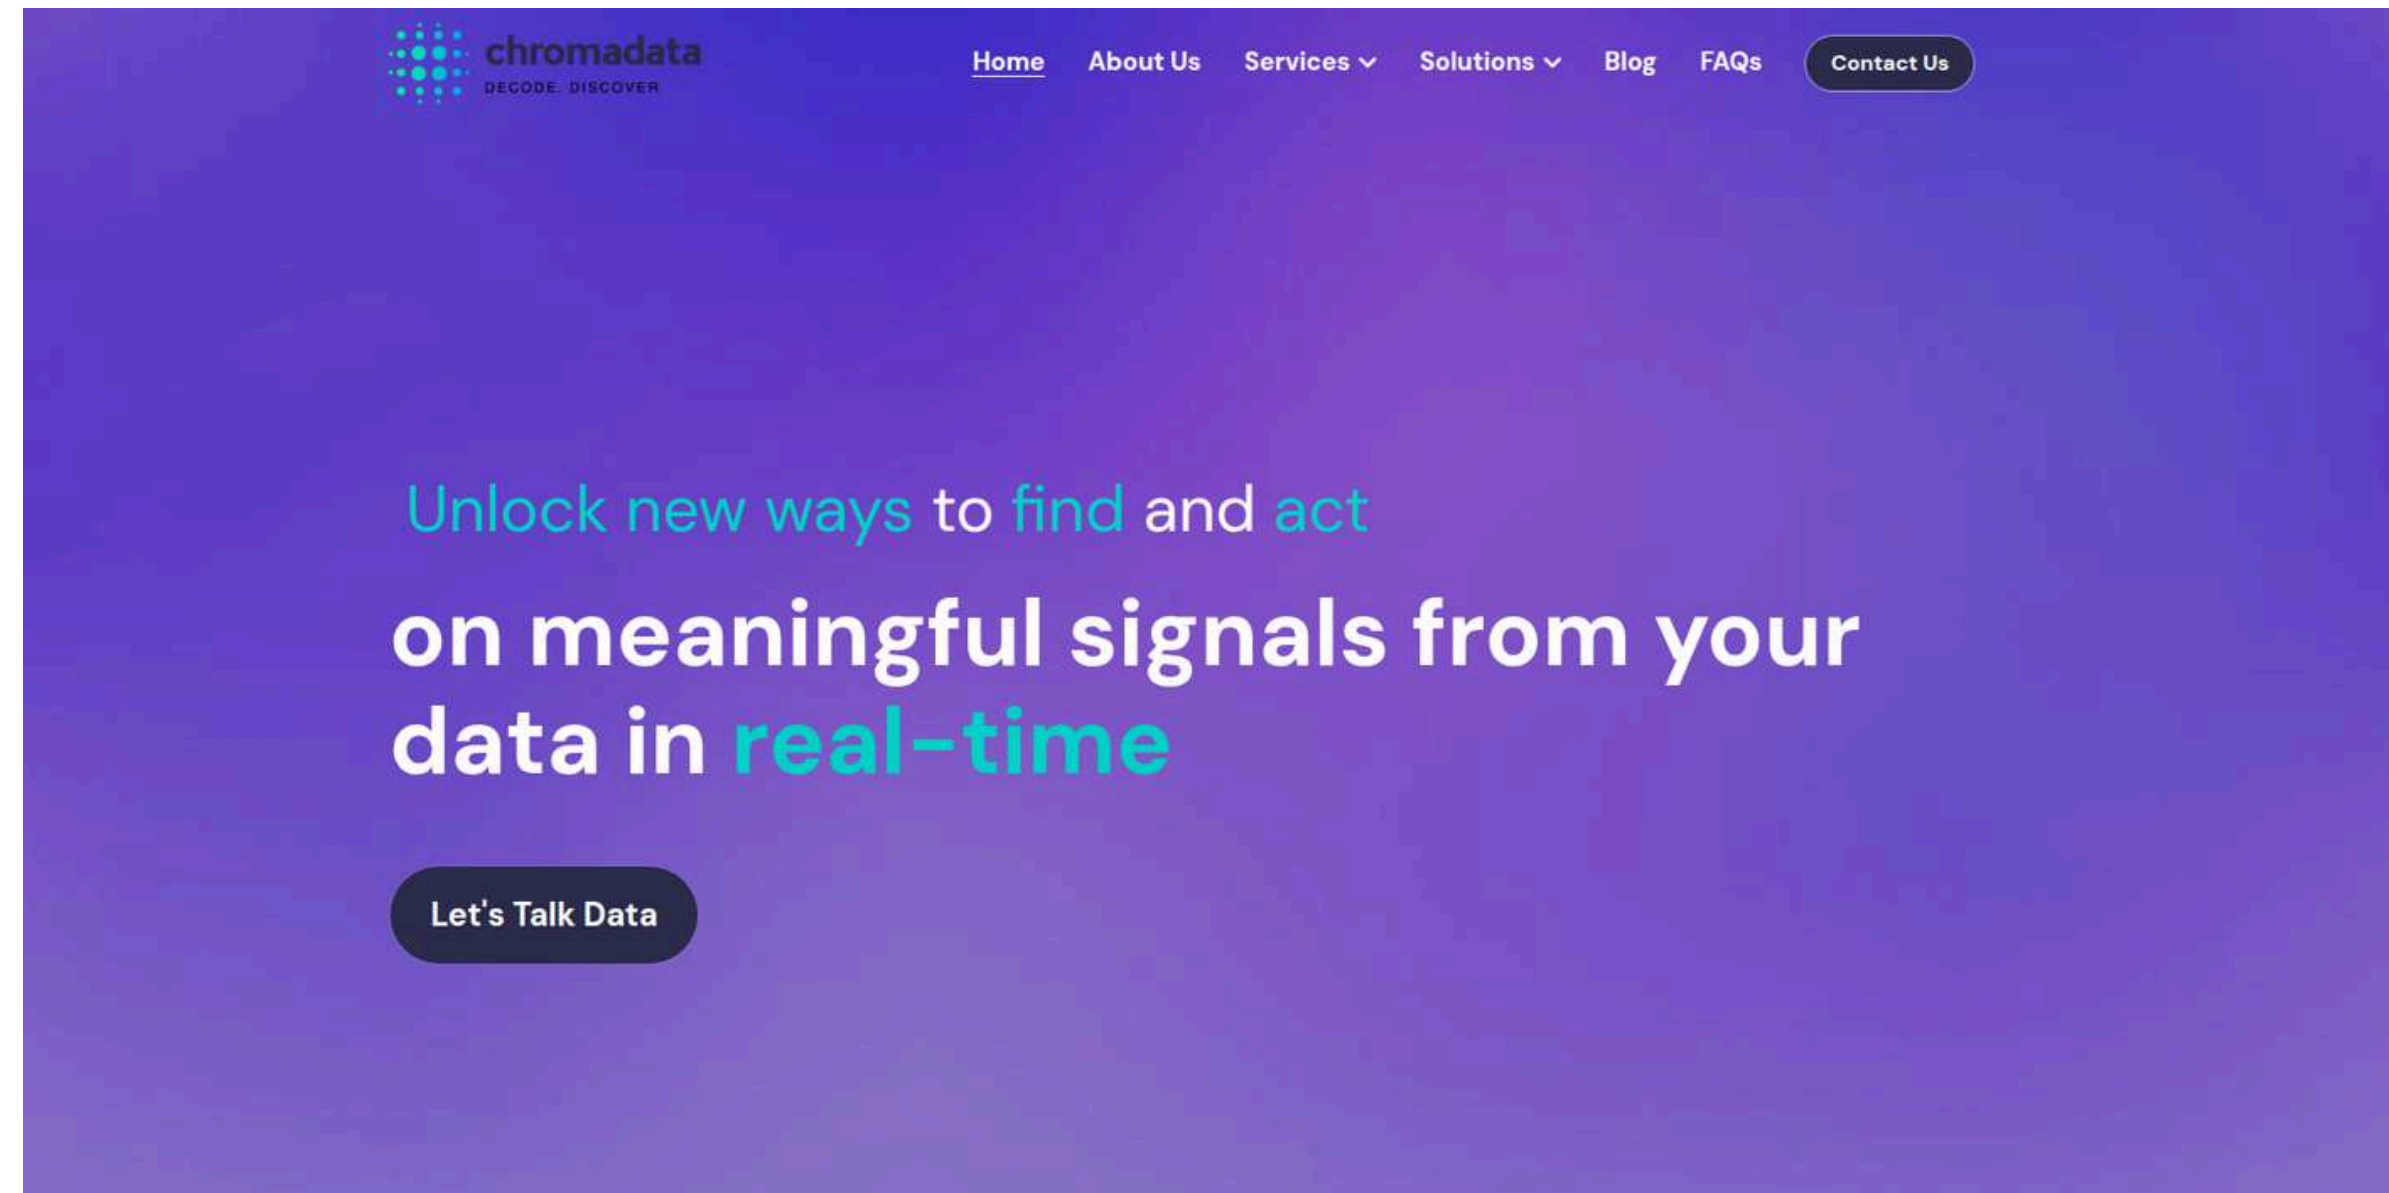

- Natural language data retrieval and analysis.
- Bedrock Agent with tool-calling for Redshift queries.
- Seamless Microsoft Teams integration.
- Secure multi-cloud architecture (Azure + AWS)

Technology Stack:

- Frontend: React.js
- Backend: Python
- Database: PostgreSQL
- Cloud: Microsoft Teams, Azure Bot Framework, AWS Bedrock, Amazon Redshift, Bot Service

Link:

- <https://www.chromadata.com/>

- Woyce technologies and services Pvt Ltd

AI Call Centre

Features:

- Initiate AI-driven calls with a number, instructions, and bot voice.
- View call logs for analytics.
- Access full call recordings.
- Review auto-generated transcripts.
- Get concise call summaries.

Technology Stack:

- Frontend: React.js
- Backend: Node.js, Python
- Database: PostgreSQL
- AI Stack: OpenAI
- Cloud : AWS
- 3rd Party: Twilio Integration
